SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Cleanup Program for Accumulations of Coal and Float Coal Dusts, Loose Coal, and Other Combustibles information collection. The information collection requirements codified in regulations 30 CFR 75.400-2 requires a mine operator to establish and to maintain a program for the regular cleanup and removal of accumulations of coal and float coal dusts, loose coal, and other combustibles. A mine operator must have a written cleanup program that is maintained in the underground mine file at the appropriate MSHA District Office for each mine. This cleanup program is used as a tool to help abate significant or persistent problems by including cleanup program revisions to address hazards detected in the mine. Federal Mine Safety and Health Act of 1977 sections

101(a) and 103(h) authorizes this information collection. *See* 30 U.S.C. 811(a) and U.S.C. 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0151.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2019. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on July 1, 2019 (84 FR 31351).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty-(30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0151. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility:

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
