## **SUPPLEMENTARY INFORMATION:**

### *I. Abstract*

This request is for an extension of a currently approved information collection. The Magnuson-Stevens Fishery Conservation and Management Act authorizes and requires the collection of cost recovery fees for Limited Access Privilege Programs, such as the Pacific Coast Groundfish Trawl Rationalization Program (Trawl Program). Cost recovery fees may not exceed three percent of the ex-vessel value and must recover costs associated with the management, data collection and analysis, and enforcement of these programs. The Trawl Program's cost recovery program requires fish sellers to submit fees to fish buyers who then submit those fees to NOAA's National Marine Fisheries Service (NMFS). Fish buyers must also submit information to NMFS on the volume and value of harvested groundfish when submitting the fees. Information is collected from monthly and annual reports as well as non-payment documents when necessary.

This program is authorized under the Pacific coast groundfish fishery regulations, trawl rationalization cost recovery program at 50 CFR 660.115.
