Lock+™ Hydro Friends Fund XXXI, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

On September 12, 2019, Lock+™ Hydro Friends Fund XXXI, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Beltzville Dam Hydropower Project to be located at the U.S. Army Corps of Engineers' (Corps) Beltzville Dam on Pohopoco Creek in Carbon County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a new 30-foot-wide, 30-foot-deep, 160-foot-tall modular frame structure to be installed at the intake for the outlet pipe adjacent to the outlet tower, containing two turbine-generator units with a rated capacity of 475 kilowatts each; (2) a new switchgear and control room located in the modular structure; and (3) a new 13-kilovolt transmission line connecting the modular structure with a nearby existing electrical grid. The proposed project would have an annual generation of 4,150 megawatt-hours.
