j. Deadline for filing responsive documents: Due to the small size of the proposed project, as well as the resource agency consultation letters filed with the application, the 60-day timeframe specified in 18 CFR 4.34(b) for filing all comments, motions to intervene, protests, recommendations, terms and conditions, and prescriptions is shortened to 30 days from the issuance date of this notice. All reply comments must be filed with the Commission within 45 days from the issuance date of this notice.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, it must also serve a copy of the document on that resource agency.

k. Description of Request: On September 25, 2019 the Secretary of the Commission issued a Notice of Application for Amendment of Conduit Exemption for the Sagebrush Project. The notice described Big Wood Canal Company's (exemptee) request to amend the conduit exemption, filed on August 22, 2019, and supplemented on September 20, 2019. On October 24, 2019, the exemptee filed additional information to reflect a proposed design change to its amendment application. Instead of removing the existing powerhouse, which contains three turbine generating units with a total installed capacity of 315 kilowatts (kW), and constructing a new powerhouse containing a single 475-kW turbine generating unit immediately downstream of the existing intake system, the exemptee now proposes to partially remove the existing powerhouse and to construct a new powerhouse adjacent to the downstream wall of the existing powerhouse. The new powerhouse would contain a single 475-kW turbine generating unit, as originally proposed by the exemptee. Additionally, instead of removing the approximately 400-foot-long existing, buried penstocks (three pipes) and excavating an open tailrace channel along the route of the existing penstocks, the exemptee now proposes to replace the existing penstocks with a single penstock.

l. Locations of the Application: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may

m. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified deadline date for the particular application.

n. Any entity who intervened in the amendment proceeding (sub docket P-8046-004) pursuant to the September 25, 2019 Notice of Application for Amendment of Conduit Exemption need not intervene again.

o.
