Information Collection Request Title: Data Collection Tool for State Offices of Rural Health Grant Program, OMB No. 0915-0322 – Revision

Abstract: The mission of the Federal Office of Rural Health Policy (FORHP) is to sustain and improve access to quality care services for rural communities. In its authorizing language (Section 711 of the Social Security Act [42 U.S.C. 912]), Congress charged FORHP with administering grants, cooperative agreements, and contracts to provide technical assistance and other activities as necessary to support activities related to improving health care in rural areas. In accordance with the Public Health Service Act, Section 338J (42 U.S.C. 254r), HRSA proposes to continue the State Offices of Rural Health (SORH) Grant Program data collection process.

A 60-day notice published in the **Federal Register** on June 28, 2019, vol. 84, No. 125; pp. 31073-74. There were no public comments.

Need and Proposed Use of the Information: FORHP seeks to continue gathering information from grantees on their efforts to provide technical assistance to clients within their State. SORH grantees submit a Technical Assistance Report that includes: (1) the total number of technical assistance encounters provided directly by the grantee, and (2) the total number of unduplicated clients that received direct technical assistance from the grantee. These measures will continue with additional measures being added in the following three categories: (1) information disseminated; (2) information created; and (3) collaborative efforts by topic area and type of audience. These proposed new measures are being added to obtain a more accurate depiction of the breadth of SORH work and are based on recommendations from the grantees. Submission of the Technical Assistance Report is submitted via the HRSA Electronic Handbook no later than 30 days after the end of each 12 month budget period.

Likely Respondents: Fifty State Offices of Rural Health.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information.
