B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Policy Statement, “Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof by States Through Agreement,” Maintenance of Existing Agreement State Programs, Requests for Information Through the Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire, and Agreement State Participation in IMPEP.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on August 8, 2019 (84 FR 39023).

1. *The title of the information collection:* Policy Statement for the “Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof by States Through Agreement,” Maintenance of Existing Agreement State Programs, Request for Information Through the Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire, and Agreement State Participation in IMPEP.

2. *OMB approval number:* 3150-0183.

3. *Type of submission:* Extension.

4. *The form number if applicable:* Not applicable.

5. *How often the collection is required or requested:* Every four years for completion of the IMPEP questionnaire in preparation for an IMPEP review. One time for new Agreement State applications. Annually for participation by Agreement States in the

IMPEP reviews and fulfilling requirements for Agreement States to maintain their programs.

6. *Who will be required or asked to respond:* All Agreement States (39 Agreement States who have signed Agreements with NRC under Section 274b. of the Atomic Energy Act (Act)) and any non-Agreement State seeking to sign an Agreement with the Commission.

7. *The estimated number of annual responses:* 65.

8. *The estimated number of annual respondents:* 40 (39 existing Agreement States and one anticipated new application).

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 298,194 hours (an average of 7,455 hours per respondent). This includes 636 hours to complete the IMPEP questionnaires; 2,250 hours to prepare one new Agreement State application, 468 hours for participation in IMPEP reviews; and 294,840 hours for maintaining Existing Agreement State programs.

10. *Abstract:* The States wishing to become Agreement States are requested to provide certain information to the NRC as specified by the Commission's Policy Statement, "Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof by States Through Agreement." The Agreement States need to ensure that the radiation control program under the Agreement remains adequate and compatible with the requirements of Section 274 of the Act and must maintain certain information. The NRC conducts periodic evaluations through IMPEP to ensure that these programs are compatible with the NRC's program, meet the applicable parts of the Act, and adequate to protect public health and safety.

Dated at Rockville, Maryland, this 9th day of December 2019.

For the Nuclear Regulatory Commission.
