PETITION FOR EXEMPTION

Docket No.: FAA-2019-0999

Petitioner: James Ivey

Section(s) of 14 CFR Affected: § 91.225(f)

Description of Relief Sought: James Ivey seeks relief from § 91.225(f) to allow the installation and practical operation of a battery-powered Automatic Dependent Surveillance–Broadcast (ADS-B) system in an aircraft that was not originally certificated with an electrical system, or that has not subsequently been certified with such a system installed, by allowing the ADS-B system to be turned off upon entering uncontrolled airspace. This would add a capability of operating the aircraft with the ADS-B turned off, similar to the existing process allowed for transponders under 14 CFR § 91.215(c).
