**[Docket Number FRA-2009-0063]**

**Petition for Waiver of Compliance**

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on January 22, 2020, the Mohawk, Adirondack, and Northern Railroad Corporation (MHWA) petitioned the Federal Railroad Administration (FRA) to extend a waiver of compliance from the safety glazing requirements of 49 CFR 223.11, *Requirements for existing locomotives*. FRA assigned the petition Docket Number FRA-2009-0063.

Specifically, MHWA seeks to extend its waiver for one 80-ton, 470-horsepower diesel-electric locomotive numbered 1670. This locomotive was built for the United States Air Force by General Electric in March 1952.

MHWA operates this locomotive on a terminal/switching railroad at the former Griffiss Air Force Base in Rome, New York, now called the Griffiss Industrial Park. MHWA operates at speeds not exceeding 10 miles per hour and hauls one to three cars on a once-per-week basis. The locomotive is equipped with safety laminate glass (AS-1, AS-2) and is serviced and maintained by MHWA at Rome, New York. MHWA requests the extension due to the “high cost to replace the glazing and the low risk to safety of continuing to operate with the current glazing.”

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S.
