SUPPLEMENTARY INFORMATION:

Title: Sanitation SOPs and Pathogen Reduction/HACCP.

OMB Number: 0583-0103.

Expiration Date of Approval: 5/31/2020.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18 and 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.), and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is announcing its intention to request renewal of the approved information collection regarding Sanitation Standard Operating Procedures (Sanitation SOPs), pathogen testing, and Hazard Analysis and Critical Control Point (HACCP) Systems requirements. There are no changes to the existing information collection. The approval for this information collection will expire on May 31, 2020.

FSIS has established requirements applicable to meat and poultry establishments designed to reduce the occurrence and numbers of pathogenic microorganisms on meat and poultry products, reduce the incidence of foodborne illness associated with the consumption of those products, and provide a framework for modernization of the meat and poultry inspection system. The regulations (1) require that each establishment develop, implement, and revise, as needed, written Sanitation SOPs (9 CFR part 416); (2) require regular microbial testing for generic *Escherichia coli* by livestock establishments (except swine which are sampled under 9 CFR 310.18) to verify the adequacy of the establishment's process controls for the prevention and removal of fecal contamination and associated bacteria (9 CFR 310.25(a)); and (3) require that all meat and poultry establishments develop and implement a system of preventive controls designed to improve the safety of their products, known as HACCP (9 CFR part 417).

Establishments may have programs that are prerequisite to HACCP that are designed to provide the basic environmental and operating conditions necessary for the production of safe, wholesome food. Because of its prerequisite programs, an establishment may decide that a food safety hazard is not

reasonably likely to occur in its operations. The establishment would need to document this determination in its Hazard Analysis and include the procedures it employs to ensure that the program is working and that the hazard is not likely to occur (9 CFR 417.5 (a) (1)).

FSIS has made the estimates below based upon an information collection assessment.

Estimate of Burden: FSIS estimates that it will take respondents an average of 1,157 hours each year to comply with the information request associated with this collection.

Respondents: Meat and poultry establishments.

Estimated Number of Respondents: 6,087.

Estimated Number of Annual Responses per Respondent:
6,087.

Estimated Total Annual Burden on Respondents: 7,045,303 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250-3700; (202) 720-5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS Web page

located at: <http://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to this **Federal Register** publication through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS Web page. Through the Web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at:

<http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.
