**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act, or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining said information (29 U.S.C. 657).

The Cranes and Derricks standard's information collection requirements impose a duty on employers to produce and maintain records that implement controls and take other measures to protect workers from hazards related to cranes and derricks used in construction. Accordingly, construction businesses with workers who operate or work in the vicinity of cranes and derricks must have, as applicable, the following documents on file and available at the jobsite: operator certifications, equipment ratings, employee training records, written authorizations from qualified individuals, and program qualification audits.

## **II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

## **III. Proposed Actions**

The agency requests an overall adjustment burden hour increase of 15,750 hours (from 382,750 to 398,500 hours) and \$156,112 in capital (operation and maintenance) costs (from \$2,286,501 to \$2,442,613). The burden hour increase is a result of both the agency's use of a different rounding methodology for calculating average burden hours, and the incorporation of previously-approved burden hours under OMB control number 1218-0270. For the same reason, and also due to inflation, the agency requests an adjustment increase in capital (operation and maintenance) costs.

Operator Qualification Final Rule (Non-Material Change) – A portion of the burden hour increase is an increase of 6,130 burden hours due to the incorporation of burden hours previously approved by OMB under OMB Control Number 1218-0270.

This aspect of the ICR constitutes a non-material change as the collection of information associated with 29 CFR 1926.1427 remains the same as approved. For the same reason, a portion of the capital cost adjustment is due to the incorporation of a \$571 decrease in costs previously approved by OMB under OMB Control Number 1218-0270. Under the currently approved OMB Control Number 1218-0261, the annual capital costs associated with 29 CFR 1926.1427 total \$655. The final crane operator qualification final rule approved under OMB Control Number 1218-0270 estimates these costs be \$84. This results in a net decrease for this ICR of \$571.

<i>Type of Review:</i>	Extension of a currently approved collection.
<i>Title:</i>	Cranes and Derricks in Construction (29 CFR 1926, subpart CC).
<i>OMB Control Number:</i>	1218-0261.
<i>Affected Public:</i>	Business or other for-profits.
<i>Number of Respondents:</i>	212,625.
<i>Frequency:</i>	Annually; On occasion.
<i>Average Time Per Response:</i>	Various.
<i>Estimated Number of Responses:</i>	2,750,968.
<i>Estimated Total Burden Hours:</i>	398,500.
<i>Estimated Cost (Operation and Maintenance):</i>	\$2,442,613.

#### **IV. Public Participation – Submission of Comments on this Notice and Internet Access to Comments and Submissions**

You may submit comments in response to this document as follows: (1) electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA-2013-0021) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled “**ADDRESSES**”). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350; TTY (877) 889-5627.

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov>

website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the website, and for assistance in using the internet to locate docket submissions.
