**SUPPLEMENTARY INFORMATION:**

Stakeholders have expressed an interest in developing management objectives and a long-term management framework for PBF. In September 2018, the Pacific Fishery Management Council (PFMC) recommended that its Highly Migratory Species Management Team develop a long-term management strategy for PBF (see the PFMC’s “September 2018 Decision Summary Document” at [https://www.pcouncil.org/wp-content/uploads/2018/09/0918\\_Decision\\_Summary\\_DocumentV2.pdf](https://www.pcouncil.org/wp-content/uploads/2018/09/0918_Decision_Summary_DocumentV2.pdf)). On May 2, 2019, NMFS held a stakeholder meeting in which participants discussed potential management objectives and strategies to achieve those objectives for the domestic commercial PBF fishery (see the NMFS report to the June PFMC meeting at [https://www.pcouncil.org/wp-content/uploads/2019/06/J2b\\_Sup\\_NMFS\\_Rpt3\\_JUN2019BB.pdf](https://www.pcouncil.org/wp-content/uploads/2019/06/J2b_Sup_NMFS_Rpt3_JUN2019BB.pdf)). The upcoming meeting scheduled for April 23, 2020, is intended to follow up the discussion from the 2019 stakeholder meeting as well as provide an opportunity for early comments on how to implement a new Inter-American Tropical Tuna Commission (IATTC) resolution on PBF conservation and management for 2021-2022 that NMFS anticipates the IATTC will adopt at its annual meeting in August 2020. In order to facilitate discussion, NMFS strongly encourages in-person participation at the meeting location described in the **ADDRESSES** section if possible. NMFS will email attendance instructions and background materials to the meeting participants who notify the meeting facilitator as

described in the **ADDRESSES** section.
