II. Background

The NRC, in collaboration with the Department of Homeland Security, has identified several instances where a licensee has failed to appropriately verify, in the case of foreign nationals seeking UA and/or UAA, that the claimed non-immigration status that the individual has provided is correct. Consequently, foreign nationals have

been granted UA and UAA at United States nuclear power plants for the purpose of work using visa categories that do not permit foreign nationals to work in the United States.

The NRC issues RISs to communicate with stakeholders on a broad range of matters. This may include communication and clarification of NRC technical or policy positions on regulatory matters that have not been communicated to or are not broadly understood by the nuclear industry.

As noted in 83 FR 20858 (May 8, 2018), this document is being published in the Proposed Rules section of the *Federal Register* to comply with publication requirements under 1 CFR chapter I.

Proposed Action

The NRC is requesting public comments on the draft RIS. The NRC staff will make a final determination regarding issuance of the RIS after it considers any public comments received in response to this request.

Dated at Rockville, Maryland, this 24th day of March, 2020.

For the Nuclear Regulatory Commission.
