SUPPLEMENTARY INFORMATION:

Title: Laboratory Assessment Requests.

OMB Number: 0583-NEW.

Type of Request: New information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18 and 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, et seq.). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is announcing its intention to collect information from laboratories that test food samples during illness outbreak investigations. This is a new information collection with 22.5 burden hours.

As a public health regulatory agency, FSIS investigates reports of foodborne illness, contamination, and adulteration potentially associated with FSIS-regulated products. During these investigations, non-FSIS laboratories may test FSIS regulated product and share the results with FSIS. FSIS OPHS

Science Staff (SciS) will review the results and associated documentation shared by the non-FSIS laboratory to determine whether FSIS will accept the results. If the SciS lead investigator determines the non-FSIS laboratory result is acceptable, FSIS may use the result to inform regulatory action (e.g. request a recall or detain product).

As part of the process to determine if the non-FSIS laboratory result is acceptable, the SciS lead investigator collects information from the non-FSIS laboratory and verifies that the non-FSIS laboratory can provide the appropriate certifications and documentation of accreditation, such as ISO17025, or another third-party accreditation entity covering the methods performed. The SciS lead investigator also verifies that the laboratory has submitted all the necessary information, including evidence of chain of custody, the appropriate laboratory reports with sample identification, final results, and authorization by the responsible official for affirming results. Finally, the SciS investigator collects and verifies laboratory methods and quality assurance records documentation from the accredited, non-FSIS laboratory.

FSIS has made the estimates below based upon an information collection assessment.

Estimate of Burden: FSIS estimates that it will take respondents an average of 7.5 hours each year to comply with the information request associated with this collection.

Respondents: Non-FSIS laboratories.

Estimated Number of Respondents: 3.

Estimated Number of Annual Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 22.5 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250-3700; (202) 720-5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS Web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to this **Federal Register** publication through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS Web page. Through the Web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail

subscription service which provides automatic and customized access to selected food safety news and information. This service is available at:

<http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.
