*Abstract:* Under the Clean Air Act (42 U.S.C. 7521 et seq.) manufacturers and importers of on-highway motorcycles must have a certificate of conformity issued by EPA covering any vehicle they intend to offer for sale in the United States. A certificate of conformity represents that the respective vehicle conforms to all applicable emissions requirements. In issuing a certificate of conformity, EPA reviews vehicle information and emissions test data to determine if the required testing has been performed and the required emissions levels have been demonstrated. After a certificate of conformity has been issued, the Agency may request additional information to verify that the product continues to meet its certified emissions standards throughout its useful

life. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

*Form Numbers:* Highway Motorcycle HC+NOx Average Exhaust Emissions Model Year Report (5900-339); Manufacturer Production Report for Engine/Equipment Manufacturers - Heavy-Duty, Nonroad, and Highway Motorcycles (5900-90); List of Emissions Related Components (5900-NEW); Catalyst Information (5900-464).

*Respondents/Affected Entities:* On-highway motorcycle manufacturers and importers.

*Estimated Number of Respondents:* 55.

*Frequency of Response:* Quarterly and annually.

*Total estimated burden:* 15,420 hours (per year).

*Total estimated cost:* \$741,499 (per year), includes \$182,560 annualized operation & maintenance costs, \$97,644 annualized capital/startup costs

*Changes in the Estimates:* These estimates reflect updated assumptions about the number of manufacturers that will maintain their own testing and certification facility. Since the previous ICR was submitted, more manufacturers have been using contract test facilities and utilizing carry over data to meet certification and compliance requirements.
