SUPPLEMENTARY INFORMATION:

1. By this instant final rule, the Commission is revising its regulations to delegate further authority to its staff to take action, as provided below, effective on the date of publication of this final rule in the Federal Register.

I. Background

2. On March 13, 2020, the President issued a proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19). Entities regulated by the Commission have had to take unprecedented actions in response to the emergency conditions, including directing staff to work remotely for an extended period, which may disrupt, complicate, or otherwise change their normal course of business operations.

Regulated entities and the public have since filed motions and other requests for Commission action to relieve regulatory burdens so that they may focus on continuity of operations and ensuring reliable operations of their systems during this emergency period. This has prompted the Commission to review its procedural regulations to ensure that the Commission's work is performed in an efficient manner.

II. Discussion

3. On September 19, 2019, the Chairman of the Commission transferred certain functions performed by the Office of Enforcement's Division of Energy Market Oversight, including the administration of FERC Form No. 552 and FERC-730, to the Office of Energy Policy and Innovation. This final rule amends 18 CFR § 375.315 to delegate authority to the Director of the Office of Energy Policy and Innovation, or the Director's designee, to take appropriate action on motions for extension of time to file, or requests or petitions for waiver of the requirements of, FERC Form No. 552 (Annual

Report of Natural Gas Transactions) and FERC-730 (Report of Transmission Investment Activity). This authority was previously delegated to the Director of the Office of Enforcement.¹ Given this change, the Commission concludes it is reasonable to now delegate this authority to the Director of the Office of Energy Policy and Innovation. Further, in light of the emergency conditions related to COVID-19, this delegation of authority will allow for more efficient processing of and action on motions for extension of time to file, or requests or petitions for waiver related to FERC Form No. 552 and FERC-730. These delegations apply to uncontested matters.

4. Correspondingly, this instant final rule removes the authority previously delegated to the Commission's Office of Enforcement to grant motions for extension of time or waiver of FERC Form No. 552 and FERC-730. Now that such authority is delegated to the Director of the Commission's Office of Energy Policy and Innovation, it is appropriate to delete that authority from the authority delegated to the Director of the Office of Enforcement.

III. Information Collection Statement

5. OMB's regulations require approval of certain information collection requirements imposed by agency rules.² This final rule, however, results in no new, additional, or different public reporting burden. This final rule does not require public utilities or

² 5 CFR 1320.13.

natural gas companies to file new, additional, or different information, and it does not change the frequency with which they must file information.

IV. Environmental Analysis

6. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.³ Issuance of this final rule does not represent a major federal action having a significant adverse effect on the human environment under the Commission's regulations implementing the National Environmental Policy Act of 1969. Part 380 of the Commission's regulations lists exemptions to the requirement to draft an Environmental Analysis or Environmental Impact Statement. Included is an exemption for rules that are clarifying, corrective, or procedural or that do not substantially change the effect of the regulations being amended.⁴ This final rule is exempt under that provision.

V. Regulatory Flexibility Act

7. The Regulatory Flexibility Act of 1980 (RFA)⁵ generally requires a description and analysis of final rules that will have significant economic impact on a substantial number of small entities. This final rule changes the Commission's delegations of

authority to take certain actions and does not create any additional requirements for filers. The Commission thus certifies that it will not have a significant economic impact upon participants in Commission proceedings. An analysis under the RFA is therefore not required

VI. Document Availability

8. In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the Internet through the Commission's Home Page (<http://www.ferc.gov>). At this time, the Commission has suspended access to the Commission's Public Reference Room due to the proclamation declaring a National Emergency concerning COVID-19.

9. From the Commission's Home Page on the Internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

10. User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at 202-502-6652 (toll free at 1-866-208-3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502-8371, TTY (202) 502-8659. E-mail the Public Reference Room at public.referenceroom@ferc.gov.

VII. Effective Date

11. The Commission is issuing this rule as an instant final rule without a period for public comment. Public notice of this action, otherwise required by 5 U.S.C. 553(b), is impracticable because of the immediate need to efficiently process and act on waiver and extension requests made in response to the emergency conditions created by COVID-19. The Commission's requirement to protect the public interest creates an immediate need for this action.

12. These regulations are effective [**Insert Date of publication in the Federal Register**].
