### ***Matters to be considered***

The panel is convening on issues relevant to NOAA's navigation services, including stakeholder use of navigation services data, products and services, Seabed 2030 and ocean mapping plans, hydrographic surveys, nautical charting including the Five-Year Plan for Sunsetting Traditional NOAA Paper Charts, the National Spatial Reference System (NSRS) and datums updates for 2022, legislative priorities and other topics. Navigation services include the data, products, and services provided by the NOAA programs and activities that undertake geodetic observations, gravity modeling, shoreline mapping, bathymetric mapping, hydrographic surveying, nautical charting, tide and water

level observations, current observations, flooding, inundation and sea level rise, marine modeling, and related topics. This suite of NOAA products and services support safe and efficient navigation, resilient coasts and communities, and the nationwide positioning information infrastructure to support America's commerce. The Panel will hear about the mission and use of NOAA's navigation services, the value these services bring, and what improvements could be made. Other administrative matters may be considered. The agenda, speakers and time are subject to change, please refer to the website for the most updated information.

***Special Accommodations***

This meeting is physically accessible to people with disabilities.
