**Notice of Application for Approval of Discontinuance or
Modification of a Railroad Signal System**

Under part 235 of title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this provides the public notice that by a document dated March 20, 2020, Norfolk Southern Corporation (NS) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2020-0029.

Applicant: Norfolk Southern Corporation

Specifically, NS requests permission to remove double track main line operations and convert into single signaled bi-directional track, NS Rule 261, for approximately 32.6 miles on the Fort Wayne Line of the Pittsburgh Division.

NS will retire one main track at milepost (MP) PC 84.8 to 96.7, MP PC 157.3 to 160.1, MP PC 161.9 to 169.4, and MP PC 178.0 to 188.3. It will also change the method

of operation at MP limits of PC 160.1 to 161.9 and MP PC 175.1 to 178.0 to non-controlled track.

The reason for the proposed changes is a line rationalization and system improvement.
