**SUPPLEMENTARY INFORMATION:**

On July 15, 2016, in Order No. 3846, DOE/FE authorized Cameron LNG to export domestically produced LNG in a volume equivalent to 515 billion cubic per year (Bcf/yr) of natural gas.<sup>1</sup> DOE/FE authorized Cameron LNG to export this LNG by vessel from Trains 4 and 5 to be constructed at the existing Cameron LNG Terminal, located in Cameron and Calcasieu Parishes,

<sup>1</sup> *Cameron LNG, LLC*, DOE/FE Order No. 3846, FE Docket No. 15-90-LNG, Opinion and Order Granting Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas by Vessel from Trains 4 and 5 of the Cameron LNG Terminal Located in Cameron and Calcasieu Parishes, Louisiana, to Non-Free Trade Agreement Nations (July 15, 2016).

Louisiana (the Expansion Project), to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries) for a 20-year term. As relevant here, Order No. 3846 requires Cameron LNG to “commence export operations using the planned liquefaction facilities no later than seven years from the date of issuance of this Order”—*i.e.*, by July 15, 2023.<sup>2</sup> In this Request, Cameron LNG asks DOE/FE to extend this deadline until May 5, 2026.<sup>3</sup>

We take administrative notice that, on March 25, 2020, the Federal Energy Regulatory Commission (FERC) issued an order granting Cameron LNG’s request for an extension of time until May 5, 2024, to construct and operate the Expansion Project. Additionally, in support of this Request, Cameron LNG identifies the actions it has taken to proceed with the construction and operation of the Expansion Project to date. Cameron LNG states that, due to circumstances that have affected the timing of the project, it is unable to complete construction and place the export facilities into service by the existing deadline.<sup>4</sup> Accordingly, Cameron LNG requests an extension until May 5, 2026, to commence commercial LNG exports from the Expansion Project. Additional details can be found in the Request, posted on the DOE/FE website at:

The Request also applies to Cameron LNG’s existing FTA order in FE Docket No. 15-36-LNG, but DOE/FE will address that portion of the Request separately pursuant to NGA section 3(c), 15 U.S.C. 717b(c).

<sup>4</sup> Request at 3-4.

## DOE/FE Evaluation

In reviewing Cameron LNG's Request, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the study entitled, *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports* (2018 LNG Export Study),<sup>5</sup> and DOE/FE's response to public comments received on that Study.<sup>6</sup>

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);<sup>7</sup>
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014);<sup>8</sup> and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States: 2019 Update*, 84 FR 49278 (Sept. 19, 2019), and DOE/FE's response to public comments received on that study.<sup>9</sup>

Parties that may oppose this Request should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Request.
