Section 108(b) addresses the promulgation of regulations that require classes of facilities to establish and maintain evidence of financial responsibility consistent with the degree and duration of risk associated with the production, transportation, treatment, storage, or disposal of hazardous substances.

The comment period for the proposed rule was scheduled to end on April 21, 2020. Since publication, EPA has received a request from several public interest groups to extend that comment period to allow for additional time to develop comments on the proposed rule due to general disruptions associated with the COVID 19 pandemic.

After considering this request for additional time, EPA has decided to extend the comment period until May 6, 2020.
