SUPPLEMENTARY INFORMATION: On April 3, 2020 (85 FR 18857), the NRC published a direct final rule amending its regulations in part 72 of title 10 of the *Code of Federal Regulations* by revising the TN Americas LLC NUHOMS® EOS Dry Spent Fuel Storage System listing within the “List of approved spent fuel storage casks” to include Amendment No. 1 to Certificate of Compliance No. 1042. Amendment No. 1 makes the following changes: adds a new basket type (Type 4) to allow for the loading of intact, damaged, or failed fuel; adds another new basket type (Type 5); accepts fuel assemblies with a minimum two-year cooling time, in selected locations within the basket; and adds the NUHOMS® MATRIX design as an alternative to the EOS horizontal storage module design for the storage of spent fuel. Amendment No. 1 also makes other additional revisions to the certificate of compliance and the technical specifications for consistency and clarity.

In the direct final rule published on April 3, 2020, the NRC stated that if no significant adverse comments were received, the direct final rule would become effective on June 17, 2020. The NRC received and docketed two comments on the companion proposed rule (85 FR 18876; April 3, 2020). Electronic copies of these comments can

be obtained from the Federal Rulemaking Web site <https://www.regulations.gov> under Docket ID NRC-2019-0224, and are also available in ADAMS under Accession Nos. ML20118C707 and ML20126G364.

The NRC evaluated the comments against the criteria described in the direct final rule and determined that they were not significant and adverse. Specifically, the comments were outside the scope of this rulemaking, did not oppose the rule, or did not propose a change to the rule, such that the rule would be ineffective or unacceptable without incorporation of the change. Therefore, the direct final rule will become effective as scheduled.

Dated: May 26, 2020.
