42 CFR Part 136a

[Docket No. IHS-FRDOC-0001]

RIN 0917-AA13

Indian Health; Removal of Suspended Regulations

AGENCY: Indian Health Service, Department of Health and Human Services

ACTION: Notice of proposed rulemaking

SUMMARY: The Indian Health Service (IHS) of the Department of Health and Human Services (HHS or “the Department”) is issuing this **notice of proposed rulemaking** (NPRM) proposing the removal of regulations appearing in the Code of Federal Regulations. These regulations have never been implemented and were referred to as “suspended” in a 1999 *Federal Register* Notice.

DATES: Send comments on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

ADDRESSES: You may submit comments to this proposed rule, identified by RIN 0917-AA14 by any of the following methods:

SUPPLEMENTARY INFORMATION: In response to Executive Order 13777, Sec. 3(d), which directs agencies to repeal existing regulations that are “outdated, unnecessary or ineffective” from the CFR, HHS proposes to remove the regulations appearing at 42 CFR part 136a. These regulations were promulgated as a final rule in 1987 and were intended to replace the regulations appearing in the CFR at 42 CFR part 136. The new regulations, however, were never implemented and have since been

referred to as “suspended” in the *Federal Register*. In the intervening years, the IHS has continued to follow the regulations appearing at 42 CFR part 136, and the IHS does not propose to alter this practice. Instead, the IHS proposes to remove the duplicative regulations at 42 CFR part 136a from the CFR. Given how much time has passed since these regulations were initially promulgated; the concern on the part of Congress regarding implementation of the regulations; and the confusion caused by having two sets of regulations addressing the same issue published in the CFR, the Agency proposes that the suspended regulations at 42 CFR part 136a be deleted in their entirety.

Executive Orders 12866, 13563, 13771, and 13777

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives. Section 3(f) of Executive Order 12866 defines a “significant regulatory action” as an action that is likely to result in a rule: (1) Having an annual effect on the economy of \$100 million or more in any 1 year, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or Tribal governments or communities (also referred to as “economically significant”); (2) creating a serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raising novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles set forth in the Executive Order. A regulatory impact analysis (RIA) must be prepared for major rules with economically significant effects (\$100 million or more in any 1 year).

HHS submits that this proposed rule is not “economically significant” as measured by the \$100 million threshold, and hence not a major rule under the Congressional Review Act. This rule has not been designated as a “significant regulatory action” under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

Executive Order 13771, titled, “Reducing Regulation and Controlling Regulatory Costs,” was issued on January 30, 2017. Executive Order 13771 directs agencies to categorize all impacts which generate or alleviate costs associated with regulatory burden and to determine the actions’ net incremental effect. HHS identifies this proposed rule as a deregulatory action (removing an obsolete rule from the Code of Federal Regulations) that provides no cost savings.

Executive Order 13777, titled, “Enforcing the Regulatory Reform Agenda,” was issued on February 24, 2017. As required by Section 3 of this Executive Order, HHS established a Regulatory Reform Task Force (HHS Task Force). Pursuant to Section 3(d)(ii), the HHS Task Force evaluated this rulemaking and determined that these regulations are “outdated, unnecessary, or ineffective.” Following this finding, the HHS Task Force advised IHS to initiate this rulemaking to remove the unnecessary regulation from the Code of Federal Regulations.

Regulatory Flexibility Act

This action will not have a significant economic impact on Indian health programs. Therefore, the regulatory flexibility analysis provided for under the Regulatory Flexibility Act is not required.

Paperwork Reduction Act

This action does not affect any information collections.
