SUPPLEMENTARY INFORMATION: The Council is charged with advising the President, through the Secretary of Health and Human Services (Secretary), concerning progress made in carrying out the provisions of Executive Order 13265, as amended by Executive Order 13824, which aims to expand and encourage youth sports participation and to promote the overall physical fitness, health, and nutrition of all Americans. The Council promotes this goal through

external outreach, raising public awareness, and recommending to the President, through the Secretary, actions to accelerate such progress. Executive Order 13824 directs the Secretary to carry out the responsibilities for public health and human services and to recognize the benefits of youth sports participation, physical activity, and a nutritious diet in helping create habits that support a healthy lifestyle. The Executive Order also directs the Secretary to develop a national strategy to expand children's participation in youth sports, encourage regular physical activity, including active play, and promote good nutrition for all Americans. Published in September 2019, the National Youth Sport Strategy (NYSS) focuses on children and youth in communities with below-average sports participation and communities with limited access to athletic facilities or recreational areas. The Council is tasked to provide additional support in promoting, shaping, and executing elements of the NYSS.

On May 13, 2020, the Secretary of Health and Human Services approved the renewal of the Council's charter. The new charter was executed and filed with the appropriate Congressional committees and the Library of Congress on May 17, 2020. The renewal of the Council's charter gives the Council authorization to operate until May, 16, 2022.
