SUPPLEMENTARY INFORMATION:

Title: FTC Cigarette and Smokeless Tobacco Data Collection.

OMB Control Number: 3084-0134.

Type of Review: Extension of a currently approved collection.

Likely Respondents: Parent companies of several of the largest cigarette companies and smokeless tobacco companies.

Estimated Annual Burden Hours: 1,980 disclosure hours.

Estimated Annual Labor Costs: \$198,000.

Abstract:

For over 50 years, the FTC has published periodic reports containing data on domestic cigarette sales and marketing expenditures by the major U.S. cigarette manufacturers. The Commission has published comparable reports on smokeless tobacco sales and marketing expenditures for more than thirty years. Originally, both reports were issued pursuant to statutory mandates. After those statutory mandates were terminated, the Commission continued to collect and publish information obtained from the cigarette and smokeless tobacco industries pursuant to Section 6(b) of the FTC Act, 15 U.S.C. 46(b). As noted above, the current PRA clearance to collect this information is valid through December 31, 2020 (OMB Control No. 3084-0134).

The Commission plans to continue sending information requests annually to the ultimate parent company of several of the largest cigarette companies and smokeless tobacco companies in the United States (“industry members”). The information requests will seek data regarding,

inter alia: (1) The tobacco sales of industry members; (2) how much industry members spend advertising and promoting their tobacco products, and the specific amounts spent in each of a number of specified expenditure categories; (3) whether industry members are involved in the appearance of their products or brand imagery in television shows, motion pictures, on the Internet, or on social media; (4) how much industry members spend on advertising intended to reduce youth tobacco usage; (5) the events, if any, during which industry members' tobacco brands are televised; and (6) how much industry members spend on public entertainment events promoting their companies but not specific tobacco products or tobacco products generally. The information will again be sought using compulsory process under Section 6(b) of the FTC Act.

Under the PRA, 44 U.S.C. 3501-3521, the FTC is requesting that OMB renew the clearance for the PRA burden associated with the proposed collection.

Burden statement:

Estimated annual burden hours: 1,980.

The FTC staff's estimated hours of burden is based on the time required each year to respond to the Commission's information request. Although the FTC currently anticipates sending information requests each year to the four largest cigarette companies and the five largest smokeless tobacco companies, the burden estimate is based on up to 15 information requests being issued per year to take into account any future changes in these industries.

These companies vary greatly in size, in the number of products they sell, and in the extent and variety of their advertising and promotion.

The companies have not disputed the staff's burden estimates in prior requests for PRA reauthorization,¹ suggesting that the time most companies would require to gather, organize, format, and produce their responses would range from 30 to 80 hours per information request for

the smaller companies, to as much as hundreds of hours for the very largest companies. As an approximation, staff continues to assume a per company average of 180 hours for the nine largest recipients of the Commission's information requests to comply—cumulatively, 1,620 hours per year.

Staff anticipates that if the Commission decides to issue information requests to any additional companies, those companies would be smaller than the primary nine recipients and that the response burden per additional recipient would be less than for the larger companies. Staff believes that the burden should not exceed 60 hours per entity for the smaller recipients of the information requests. Cumulatively, then, the total burden for six additional respondents should not exceed 360 hours per year. Thus, the overall estimated burden for a maximum of 15 recipients of the information requests is 1,980 hours per year. These estimates include any time spent by separately incorporated subsidiaries and other entities affiliated with the ultimate parent company that has received the information request.

Estimated annual cost burden: \$198,000.

Commission staff cannot calculate with precision the labor costs associated with this data production, as those costs entail varying compensation levels of management and/or support staff among companies of different sizes. The staff assumes that paralegals and computer analysts will perform most of the work involved in responding to the Commission Orders, although in-house legal personnel will be involved in reviewing the actual submission to the Commission. The staff continues to use a combined hourly wage of \$100/hour for the combined efforts of these individuals.² Using this figure, staff's best estimate for the total labor costs for up to 15

² Commission staff believes this estimate is conservative: According to data from the Bureau of Labor Statistics, the mean hourly wages for these three occupations are as follows: \$26.45 for paralegals; \$46.91 for computer and information analysts; and \$69.86 for lawyers. Economic News Release, Bureau of Labor Statistics, Table 1—National employment and wage data from the Occupational Employment

information requests is \$198,000 per year. Staff believes that the capital or other non-labor costs associated with the information requests are minimal.

Although the information requests may necessitate that industry members maintain the requested information provided to the Commission, they should already have in place the means to compile and maintain business records.

Statistics survey by occupation, May 2019 (Table 1), available at <http://www.bls.gov/news.release/ocwage.t01.htm>. Even if employees of the major cigarette and smokeless tobacco manufacturers earn more than these hourly wages, the staff believes its \$100/hour estimate is appropriate.
