SYNOPSIS

With this Public Notice, the Wireless Telecommunications Bureau (WTB) establishes GN Docket No. 20-173, which is captioned “Eligible Satellite Operator Transition Plans for the 3.7-4.2 GHz Band.” This Public Notice also details the process for notice and comment on space station operators’ Transition Plans. On March 3, 2020, the Commission released the *Expanding Flexible Use of the 3.7 to 4.2 GHz Band Report and Order* (85 FR 22804 (April 23, 2020)), which adopted new rules to make 280 megahertz of mid-band spectrum available for flexible use through a Commission-administered public auction of overlay licenses, plus a 20 megahertz guard band, throughout the contiguous United States by transitioning existing services out of the lower portion and into the upper 200 megahertz of the 3.7-4.2 GHz band (C-band).

The *3.7 GHz Report and Order* required that each eligible space station operator submit to the Commission, and make available for public review in GN Docket No. 18-122, a Transition Plan describing the necessary steps and estimated costs to transition all existing services out of the lower 300 megahertz of the C-band. The *3.7 GHz Report and Order* directed WTB to issue a Public Notice detailing the process for incumbent earth station operators, programmers, and other C-band stakeholders to file comments on each Transition Plan. Stakeholder comments on

the Transition Plans are due on July 13, 2020. Filers responding to the Transition Plans should submit comments in GN Docket No. 20-173.
