**SUPPLEMENTARY INFORMATION:**

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class E airspace extending upward from 700 feet above the surface at Athens Municipal Airport and Lochridge Ranch Airport, Athens, TX, to support instrument flight rule operations at these airports.

**History**

The FAA published a notice of proposed rulemaking in the FEDERAL REGISTER (85 FR 27176; May 7, 2020) for Docket No. FAA-2020-0245 to amend the Class E airspace extending upward from 700 feet above the surface at Athens Municipal Airport and Lochridge Ranch Airport, Athens, TX. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in

14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

### **Availability and Summary of Documents for Incorporation by Reference**

This document amends FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### **The Rule**

This amendment to Title 14 Code of Federal Regulations (14 CFR) part 71:

Amends the Class E airspace area extending upward from 700 feet above the surface to within a 6.4-mile radius (decreased from a 6.5-mile radius) at Athens Municipal Airport, Athens, TX; and removes the Athens NDB and the associated extension from the Athens, TX, airspace legal description;

And amends the Class E airspace area extending upward from 700 feet above the surface at Lochridge Ranch Airport, Athens, TX, by amending the extension to the north to 2.6 miles (decreased from 4 miles) each side of the 356° bearing from the Crossroads NDB extending from the 6.5-mile radius of the airport to 11.5 miles north of the airport; removes the city associated with the airport to comply with changes to FAA Order 7400.2M, Procedures for Handling Airspace Matters; and updates the geographic coordinates of the airport and the name of the Crossroads NDB (previously the Crossroads RBN) to coincide with the FAA's aeronautical database.

These actions are the result of airspace reviews caused by the decommissioning of the Athens NDB, which provided navigation information for the instrument procedures at these airports.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

### **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
