9000-0090, Rights in Data and Copyrights.

B. Need and Uses

Contracts must contain terms that delineate the appropriate rights and obligations of the Government and the contractor regarding the use, reproduction and disclosure of data. This clearance covers the information that offerors and contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- *FAR 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.* This provision requires an offeror to state, in response to a solicitation, whether data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software. If the Government does not receive unlimited rights, the offeror must provide a list of the data that qualify as limited rights data or restricted computer software. The offeror would identify any proprietary data it would use during

contract performance, in order that the contracting officer might ascertain if such proprietary data should be delivered.

- *FAR 52.227-16, Additional Data Requirements.* This clause requires contractors to keep, for possible delivery to the Government, any data, in addition to data already required to be delivered under the contract, first produced or specifically used in performance of the contract for a period of three years from the final acceptance of all items delivered under the contract. The data delivered under this clause may be in the form of computations, preliminary data, records of experiments, etc. For any data to be delivered under this clause, the Government will pay the contractor for converting the data into a specific form, and for reproducing and delivering the data. The purpose of such recordkeeping requirements is to ensure that, if all data requirements are not known prior to contract award, the Government can fully evaluate the research in order to ascertain future activities and to insure that the research was completed and fully reported, as well as to give the public an opportunity to assess the research results and secure any additional information.

- *FAR 52.227-17, Rights in Data-Special Works.* This clause is included in solicitations and contracts primarily for production or compilation of data. It is used in rare and exceptional circumstances to permit the Government to limit the contractor's rights in data by preventing the release, distribution, and publication of any data first produced in the performance of the contract. This clause may also be limited to particular items and not the entire contract. This clause requires contractors to assign (with or without registration), or obtain the assignment of, the copyright to the Government or its designated assignee.
- *FAR 52.227-18, Rights in Data-Existing Works.* This clause is used when the Government is acquiring existing audiovisual or similar works, such as books, without modification. This clause requires contractors to obtain license for the Government to reproduce, prepare derivative works, and perform and display publicly the materials.
- *FAR 52.227-19, Commercial Computer Software License.* This clause requires contractors to affix a notice on any commercial software delivered under the contract

that provides notice that the Government's rights regarding the data are set forth in the contract.

- *FAR 52.227-20, Rights in Data-SBIR Program.* This clause authorizes contractors under Small Business Innovation Research (SBIR) contracts to affix a notice to SBIR data delivered under the contract to limit the Government's rights to disclose data first produced under the contract. Contractors shall obtain from their subcontractors all data and rights necessary to fulfill the contractor's obligations to the Government under the contract. If a subcontractor refuses to accept terms affording the Government those rights, the contractor shall notify the contracting officer of the refusal.
- *FAR 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment-Major Systems.* This clause requires major systems contractors to certify that the data delivered under the contract is complete, accurate, and compliant with the requirements of the contract.
- *FAR 52.227-23, Rights to Proposal Data (Technical).* This clause allows the Government to identify pages of a proposal that would not be subject to unlimited rights in the technical data.
