BACKGROUND

On July 29, 2020, Novus International, Inc., St. Charles, Missouri, filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of methionine from France, Japan, and Spain. Accordingly, effective July 29, 2020, the Commission instituted antidumping duty investigation Nos. 731-TA-1534-1536 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference through video conferencing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of August 4, 2020 (85 FR 47243). In light of the restrictions on access to the Commission building due to the COVID-19 pandemic, the Commission conducted its conference through written testimony and video conference on August 19, 2020. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to § 733(a) of the Act (19 U.S.C. 1673b(a)). It completed and filed its determinations in these investigations on September 14, 2020. The views of the Commission are contained in USITC Publication 5120 (September 2020), entitled *Methionine from France, Japan, and Spain: Investigation Nos. 731-TA-1534-1536 (Preliminary)*.
