machine learning and increase the positive impact of
machine learning and artificial intelligence on society, to
engage in or sponsor collaborative research and development
in connection with the measurement and validation of
machine learning, to publish the results of the
collaborative research and development projects of the
Joint Venture and to provide other resources to the
scientific community and the public at large with respect
to machine learning, and to undertake those other
activities which the Board of Directors may from time to
time approve.

Membership in MLCommons Association remains open and
MLCommons Association intends to file additional written
notifications disclosing all changes in membership.
