Federal Acquisition Regulation: Removal of Obsolete Definitions

AGENCY: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to remove the definitions of the terms “annual receipts” and “number of employees” in the regulations regarding small business programs and to move the definition of “affiliates,” as used with regard to small business size determination, to appropriate locations in the FAR.

DATES: Effective: [Insert date 30 days after date of publication in the FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are amending the FAR to remove the definitions of “annual receipts” and “number of employees” at FAR 19.101. These definitions unnecessarily duplicate the Small Business Administration (SBA) regulation at 13 CFR part 121. In addition, these definitions in the FAR are outdated, following the publication of SBA’s final rule at 84 FR 66561 on December 5, 2019.

SBA’s final rule amended 13 CFR part 121 to implement Public Law 115-324 (the “Small Business Runway Extension Act of 2018”), which amended section 3(a)(2)(C)(ii)(II) of the Small Business Act (15 U.S.C. 632(a)(2)(C)(ii)(II)) to modify the requirements for proposed small business size standards. SBA’s final rule modifies its method for calculating average annual receipts used to prescribe size standards for small businesses by changing the calculation of average annual receipts for all of SBA’s receipts-based
size standards, and for other agencies’ proposed receipts-based size standards, from a 3-year averaging period to a 5-year averaging period. SBA has independent statutory authority to issue size standards.

While the definitions of “annual receipts” and “number of employees” are listed in part 19 of the FAR, they are not necessary for contracting officers, as SBA has sole responsibility for prescribing how these terms are used to determine small business size. The contracting officer’s responsibility is to select the applicable North American Industry Classification Standards (NAICS) code and size standard for a given acquisition and to verify that a business concern has represented its business size for the acquisition. Therefore, DoD, GSA, and NASA are removing these redundant, obsolete definitions from the FAR.

Currently, the term “affiliates” only appears in the definitions of “annual receipts” and “number of employees” in FAR 19.101; it is not used anywhere else in part 19. Upon the removal of those definitions from FAR 19.101, “affiliates” will no longer be used in FAR part 19. As such, the definition is no longer required in section 19.101. However, since the term is used in multiple other locations in the FAR, the definition for “affiliates,” as
used with regard to small business size determination, will be moved to these locations.

II. Discussion and Analysis

Subpart 19.1, Size Standards, is amended to remove the definitions of “annual receipts” and “number of employees.” As explained in section I of this preamble, these definitions are not necessary for contracting officers since SBA determines small business size standards, as well as whether a specific business is small under those standards. Subpart 19.1 is also amended to remove the definition of “affiliates” since the term will no longer be used in the subpart.

Instead, the definition of “affiliates” is being incorporated into the definitions of “small business concern” at FAR part 2, FAR provisions 52.212-3 and 52.219-1, and FAR clauses 52.219-6, 52.219-7, and 52.219-28, which is where the term “affiliates” is used with regard to small business size determination.

III. Publication of This Final Rule for Public Comment Is Not Required by Statute

The statute that applies to the publication of the FAR is the Office of Federal Procurement Policy statute (codified at title 41 of the United States Code). Specifically, 41 U.S.C. 1707(a)(1) requires that a
procurement policy, regulation, procedure, or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure, or form, or has a significant cost or administrative impact on contractors or offerors. While this final rule relates to the expenditure of appropriated funds, it is not required to be published for public comment, because it does not have a significant effect or impose any requirements on contractors or offerors. The rule removes two definitions that unnecessarily duplicate SBA’s regulation and moves another definition from one part of the FAR to other parts where the term being defined is actually used.

IV. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

This rule amends the FAR to remove the definitions of “annual receipts” and “number of employees” at section 19.101, as well as moving the definition of “affiliates,” as used with regard to small business size determination, from 19.101 to other locations in the FAR where the term is actually used. This rule does not change the applicability
or the text of any FAR solicitation provisions or contract clauses.

V. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity).

E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

VI. Executive Order 13771

This final rule is not subject to E.O. 13771, Reducing Regulation and Controlling Regulatory Costs, because this rule is not a significant regulatory action under E.O. 12866.

VII. Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 et seq.) does not apply to this rule, because a notice of proposed
rulemaking and an opportunity for public comment are not required to be given for this rule under 41 U.S.C. 1707(a)(1) (see section III. of this preamble). Accordingly, no regulatory flexibility analysis is required and none has been prepared.

VIII. **Paperwork Reduction Act**

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

Such a concern is “not dominant in its field of operation” when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration must be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity. (See 15 U.S.C. 632.)

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual
