SUPPLEMENTARY INFORMATION:  The Inspector General Investigative Files—FCA system is used to document the conduct and outcome of investigations; to report results of investigations to other components of the FCA and other agencies and authorities for their use in evaluating programs and imposition of criminal, civil, or administrative sanctions; to report the results of investigations to other agencies or other regulatory bodies for an action deemed appropriate, and for retaining sufficient information to fulfill reporting requirements; and to maintain records related to the OIG’s activities. The Agency is updating the notice to make administrative updates and non-substantive changes to conform to the SORN template requirements prescribed in the Office of Management and Budget (OMB) Circular No. A-108.

This publication satisfies the requirement of the Privacy Act of 1974 that agencies publish a system of records notice in the Federal Register when there is a revision,
change, or addition to the system of records. The substantive changes and modifications to the currently published version of FCA-7—Inspector General Investigative Files—FCA include:

1. Identifying the records in the system as unclassified.
2. Revising the safeguards section to reflect updated cybersecurity guidance and practices.
3. Clarifying the system purpose, categories of records in the system, and categories of records sources.
4. Adding routine uses permitting the disclosure of records and information contained in the records system: (a) to facilitate qualitative assessment reviews of the OIG’s investigative function by certain other federal agencies; (b) to facilitate the preparation of the annual report to the President by the Council of the Inspectors General on Integrity and Efficiency; (c) to respond to statutory reporting requirements; and (d) to the public and news media where there is a public interest and disclosure would not constitute and unwarranted invasion of personal privacy.
5. Removing a routine use for sharing information with independent auditors or other private firms responsible for carrying out work on behalf of OIG, as such sharing is
otherwise covered by the Agency’s General Statement of Routine Uses.

6. Revising the policies and procedures for retention and disposal of records to reflect an updated National Archives and Records Administration-approved records schedule.

Additionally, non-substantive changes have been made to the notice to align with the latest guidance from OMB.

The amended system of records is: FCA-7—Inspector General Investigative Files—FCA. As required by 5 U.S.C. 552a(r) of the Privacy Act, as amended, FCA sent notice of this modified system of records to the Office of Management and Budget, the Committee on Oversight and Reform of the House of Representatives, and the Committee on Homeland Security and Governmental Affairs of the Senate.
