Common Alloy Aluminum Sheet from Germany: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that common alloy aluminum sheet (aluminum sheet) from Germany is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation is January 1, 2019 through December 31, 2019. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 733(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this
investigation on April 7, 2020.\(^1\) On July 29, 2020, Commerce postponed the preliminary
determination of this investigation and the revised deadline is now October 6, 2020.\(^2\) For a
complete description of the events that followed the initiation of this investigation, see the
Preliminary Decision Memorandum.\(^3\) A list of topics included in the Preliminary Decision
Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum
is a public document and is on file electronically via Enforcement and Compliance’s
Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS).
ACCESS is available to registered users at https://access.trade.gov. In addition, a complete
version of the Preliminary Decision Memorandum can be accessed directly at
http://enforcement.trade.gov/frn/. The signed and the electronic versions of the Preliminary
Decision Memorandum are identical in content.

Scope of the Investigation

The products covered by this investigation are aluminum sheet from Germany. For a
complete description of the scope of this investigation, see Appendix I.

Scope Comments

**Methodology**

Commerce is conducting this investigation in accordance with section 731 of the Act. Commerce has calculated export prices in accordance with section 772(a) of the Act. Constructed export prices have been calculated in accordance with section 772(b) of the Act. Normal value (NV) is calculated in accordance with section 773 of the Act. Furthermore, pursuant to section 776(a) and (b) of the Act, Commerce has preliminarily relied upon facts otherwise available, with adverse inferences, for Hydro Aluminium Rolled Products GmbH (HARP). For a full description of the methodology underlying the preliminary determination, *see* the Preliminary Decision Memorandum.

**All-Others Rate**

Sections 733(d)(1)(ii) and 735(c)(5)(A) of the Act provide that in the preliminary determination Commerce shall determine an estimated all-others rate for all exporters and producers not individually examined. This rate shall be an amount equal to the weighted-average of the estimated weighted-average dumping margins established for exporters and

producers individually investigated, excluding rates that are zero, *de minimis*, or determined entirely under section 776 of the Act.

In this investigation, Commerce preliminarily assigned a rate based entirely on facts available to HARP. Therefore, the only rate that is not zero, *de minimis*, or based entirely on facts otherwise available is the rate calculated for Novelis Deutschland GmbH (Novelis). Consequently, the rate calculated for Novelis is also assigned as the rate for all other producers and exporters.

**Preliminary Determination**

Commerce preliminarily determines that the following estimated weighted-average dumping margins exist:

<th>Estimated Weighted-Average Dumping Margin (percent)</th>

</thead>
<tbody>
<tr>
<td>Hydro Aluminium Rolled Products GmbH</td>

**Suspension of Liquidation**

In accordance with section 733(d)(2) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of entries of subject merchandise, as described in Appendix I, entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the *Federal Register*. Further, pursuant to section 733(d)(1)(B) of

the Act and 19 CFR 351.205(d), Commerce will instruct CBP to require a cash deposit equal to
the estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1)
the cash deposit rate for the respondents listed in the table above will be equal to the company-
specific estimated weighted-average dumping margins determined in this preliminary
determination; (2) if the exporter is not a respondent identified above, but the producer is, then
the cash deposit rate will be equal to the company-specific estimated weighted-average dumping
margin established for that producer of the subject merchandise; and (3) the cash deposit rate for
all other producers and exporters will be equal to the all-others estimated weighted-average
dumping margin. These suspension of liquidation instructions will remain in effect until further
notice.

Disclosure

Commerce intends to disclose its calculations and analysis performed to interested parties
in this preliminary determination within five days of any public announcement or, if there is no
public announcement, within five days of the date of publication of this notice in accordance
with 19 CFR 351.224(b).

Verification

Commerce is currently unable to conduct on-site verification of the information relied
upon in making its final determination in this investigation. Accordingly, we intend to take
additional steps in lieu of on-site verification. Commerce will notify interested parties of any
additional documentation or information required.

Public Comment

Case briefs or other written comments may be submitted to the Assistant Secretary for
Enforcement and Compliance. A timeline for the submission of case briefs and written
comments on non-scope issues will be announced at a later date. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than seven days after the deadline for case briefs. The deadlines for submitting case and rebuttal briefs on scope issues are in the Preliminary Scope Decision Memorandum. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice. Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this investigation are encouraged to submit with each argument: (1) a statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

During the course of this investigation, Commerce collected information from Novelis and HARP relating to the single entity treatment of affiliated producers, as well as the single entity treatment of each mandatory respondent with Aluminum Norf GmbH (AluNorf), consistent with 19 CFR 351.401(f). Interested parties are invited to comment on the application of the criteria in 19 CFR 351.401(f) to Novelis, HARP, and AluNorf, and to Novelis and HARP individually with AluNorf in their case briefs.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party’s name, address, and

telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at a time and date to be determined. Parties should confirm by telephone the date and time of the hearing two days before the scheduled date of the hearing.

Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. Section 351.210(e)(2) of Commerce’s regulations requires that a request by exporters for postponement of the final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

On September 16 and 18, 2020, pursuant to 19 CFR 351.210(e), HARP and Novelis, respectively, requested that Commerce postpone the final determination and that provisional measures be extended to a period not to exceed six months. In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because: (1) the preliminary determination is affirmative; (2) the requesting exporters account for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, Commerce is postponing the final determination and extending the provisional measures from a four-month

---

period to a period not greater than six months. Accordingly, Commerce will make its final
determination no later than 135 days after the date of publication of this preliminary
determination.

**International Trade Commission Notification**

In accordance with section 733(f) of the Act, Commerce will notify the International
Trade Commission (ITC) of its preliminary determination. If the final determination is
affirmative, the ITC will determine before the later of 120 days after the date of this preliminary
determination or 45 days after the final determination whether these imports are materially
injuring, or threaten material injury to, the U.S. industry.

**Notification to Interested Parties**

This determination is issued and published in accordance with sections 733(f) and
777(i)(1) of the Act and 19 CFR 351.205(c).

Jeffrey I. Kessler,
Assistant Secretary
for Enforcement and Compliance.
Appendix I

Scope of the Investigation

The products covered by this investigation are common alloy aluminum sheet, which is a flat-rolled aluminum product having a thickness of 6.3 mm or less, but greater than 0.2 mm, in coils or cut-to-length, regardless of width. Common alloy sheet within the scope of this investigation includes both not clad aluminum sheet, as well as multi-alloy, clad aluminum sheet. With respect to not clad aluminum sheet, common alloy sheet is manufactured from a 1XXX-, 3XXX-, or 5XXX-series alloy as designated by the Aluminum Association. With respect to multi-alloy, clad aluminum sheet, common alloy sheet is produced from a 3XXX-series core, to which cladding layers are applied to either one or both sides of the core. The use of a proprietary alloy or non-proprietary alloy that is not specifically registered by the Aluminum Association as a discrete 1XXX-, 3XXX-, or 5XXX-series alloy, but that otherwise has a chemistry that is consistent with these designations, does not remove an otherwise in-scope product from the scope.

Common alloy sheet may be made to ASTM specification B209–14 but can also be made to other specifications. Regardless of specification, however, all common alloy sheet meeting the scope description is included in the scope. Subject merchandise includes common alloy sheet that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of this investigation if performed in the country of manufacture of the common alloy sheet.

Excluded from the scope of this investigation is aluminum can stock, which is suitable for use in the manufacture of aluminum beverage cans, lids of such cans, or tabs used to open such cans. Aluminum can stock is produced to gauges that range from 0.200 mm to 0.292 mm, and has an H-19, H-41, H-48, H-39, or H-391 temper. In addition, aluminum can stock has a lubricant applied to the flat surfaces of the can stock to facilitate its movement through machines used in the manufacture of beverage cans. Aluminum can stock is properly classified under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7606.12.3045 and 7606.12.3055.

Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set for the above.

Common alloy sheet is currently classifiable under HTSUS subheadings 7606.11.3060, 7606.11.6000, 7606.12.3096, 7606.12.6000, 7606.91.3095, 7606.91.6095, 7606.92.3035, and 7606.92.6095. Further, merchandise that falls within the scope of this investigation may also be entered into the United States under HTSUS subheadings 7606.11.3030, 7606.12.3015, 7606.12.3025, 7606.12.3035, 7606.12.3091, 7606.91.3055, 7606.91.6055, 7606.92.3025, 7606.92.6055, 7607.11.9090. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.
