SUPPLEMENTARY INFORMATION: Section 203(c) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627) as amended, directs and authorizes the Secretary of Agriculture “to develop and improve standards of quality, condition, quantity, grade, and packaging, and recommend and demonstrate such standards in order to encourage uniformity and consistency in commercial practices.”

AMS is committed to carrying out this authority in a manner that facilitates the marketing of agricultural commodities and makes copies of official standards available upon request. The U.S. Standards for Grades of Fruits and Vegetables that no longer appear in the Code of Federal Regulations are maintained by AMS at: http://www.ams.usda.gov/grades-standards. AMS is proposing to terminate these 10 U.S. consumer standards using the procedures that appear in part 36 of Title 7 of the Code of Federal Regulations (7 CFR part 36).

Background

AMS continually reviews all fruit and vegetable grade standards to ensure their usefulness to the industry, modernize language, and remove duplicative terminology. On February 24, 2017, President Trump signed Executive Order (E.O.) 13777, Enforcing the Regulatory Reform Agenda, which established a Federal policy to alleviate unnecessary regulatory burdens on the American people. Section 3 of the E.O. directs Federal agencies to
establish a Regulatory Reform Task Force to (1) evaluate existing regulations and recommend their repeal, replacement, or modification to the USDA Secretary, and (2) identify regulations that are outdated, unnecessary, ineffective, or whose costs exceed their benefits.

The consumer standards were originally developed for re-packers and were never fully adopted by industry, which instead uses U.S. grade standards intended for wholesale use, which are revised regularly to reflect current industry practices. AMS identified 10 U.S. consumer standards that are not related to a current, active marketing order, import regulation, or export act and which are obsolete. These consumer standards continue to cause confusion within the industry due to conflicting and outmoded grades and terminology. They are ineffective, unnecessary, and have become a burden to the U.S. and global produce industry.

The elimination of these U.S. consumer standards would reduce obsolete information, lessen confusion in interpreting grade standards, and promote consistency within the industry.

A 60-day comment period is provided for interested persons to submit comments on the proposal to terminate these 10 U.S. consumer standards.
