SUPPLEMENTARY INFORMATION:

I. Background
In the *Federal Register* of August 10, 2020 (85 FR 48124), we published a notification entitled "Request for Information and Comments on Consumption of Certain Uncommon Produce Commodities in the United States." This action opened a docket with a 90-day comment period to receive information and comments related to certain produce commodities with no or low reported consumption in the database relied on to create the list of rarely consumed raw commodities that are exempt from the Standards for the Growing, Harvesting, Packing, and Holding of Produce for Human Consumption (21 CFR part 112) (produce safety regulation).

FDA has received a request for a 60-day extension for this comment period in order to allow additional time for interested persons to develop and submit data, information, and/or comments for this Request for Information. We have concluded that it is reasonable to extend for 60 days the comment period for this Request for Information. The Agency believes that this extension allows adequate time for any interested persons to submit data, information, and/or comments for this Request for Information.
