South Carolina: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency is granting South Carolina final authorization for changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). The Agency published a Proposed Rule on September 11, 2020 and provided for public comment. The Agency received one comment in support of authorizing the South Carolina program changes. This comment can be reviewed in the docket for this action under Docket ID No. EPA-R04-RCRA-2020-0402. No further opportunity for comment will be provided.

DATES: This final authorization is effective [*INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER*].

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R04-RCRA-2020-0402. All documents in the docket are listed on the <http://www.regulations.gov> web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. SUPPLEMENTARY INFORMATION:

A. What changes to South Carolina’s hazardous waste program is EPA authorizing with this action?

South Carolina submitted a complete program revision application, dated April 8, 2020, seeking authorization of changes to its hazardous waste program in accordance with 40 CFR 271.21. The EPA now makes a final decision that South Carolina’s hazardous waste program revisions that are being authorized are equivalent to, consistent with, and no less stringent than the Federal program, and therefore satisfy all the requirements necessary to qualify for final authorization. For a list of State rules being authorized with this final authorization, please see the Proposed Rule published in the September 11, 2020 *Federal Register* at 85 FR 56200.

B. What is codification and is the EPA codifying South Carolina’s hazardous waste program as authorized in this rule?

Codification is the process of placing citations and references to the State’s statutes and regulations that comprise the State’s authorized hazardous waste program into the Code of Federal Regulations. The EPA does this by adding those citations and references to the authorized State rules in 40 CFR part 272. The EPA is not codifying the authorization of South Carolina’s revisions at this time. However, the EPA reserves the ability to amend 40 CFR part 272, subpart PP, for the authorization of South Carolina’s program changes at a later date.

C. Statutory and Executive Order Reviews

This final authorization revises South Carolina’s authorized hazardous waste management program pursuant to Section 3006 of RCRA and imposes no requirements other than those currently imposed by State law. For further information on how this authorization complies with applicable executive orders and statutory provisions, please see the Proposed Rule published in the September 11, 2020 *Federal Register* at 85 FR 56200. The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the *Federal Register*. A major rule cannot take effect until 60 days after it is published in the *Federal Register*. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This final action will be effective ***[INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER]***.
