**SUPPLEMENTARY INFORMATION:**

The BLS seeks Office of Management and Budget approval to conduct interim
supplement interviews between rounds 19 and 20 of the NLSY97. Respondents of the
NLSY97 will undergo an interview of approximately 12 minutes on average, during
which they will answer questions about labor market experiences, health, and income.
The interim supplemental survey will be conducted by internet and by telephone. We
anticipate that approximately one-third of interviews will be self-administered by
internet, with the remaining interviews being interviewer-administered by telephone. The
BLS plans to record randomly selected segments of the interviews collected by
television. Recording interviews helps the BLS and its contractors to ensure that the
interviews actually took place and interviewers are reading the questions exactly as
worded and entering the responses properly. Recording also helps to identify parts of the
interview that might be causing problems or misunderstanding for interviewers or
respondents. Each respondent will be informed that the interview may be recorded for
quality control, testing, and training purposes. If the respondent objects to the recording
of the interview, the interviewer will confirm to the respondent that the interview will not
be recorded and then proceed with the interview. The interim supplemental survey will
consist of approximately 35 questions. Similar questions have appeared in previous
rounds of the NLSY97, the Current Population Survey, or the Census Household Pulse
survey. The content covers household composition, current employment for the
respondent and spouse/partner, changes in employment/earnings during the past 12
months due to the coronavirus pandemic, time spent teaching children under age 18,
health, health insurance, having contracted the coronavirus, medical care deferred due to
the coronavirus pandemic, mental health, income, and earnings. During the fielding
period for the interim supplemental interviews, no more than 2 percent of respondents
will be asked to participate in a brief validation interview a few weeks after the initial
interview. The purpose of the validation interview is to verify that the initial interview
took place as the interviewer reported and to assess the data quality of selected
questionnaire items. For additional substantive information about this ICR, see the related
notice published in the Federal Register on July 31, 2020 (85 FR 46187).

This information collection is subject to the PRA. A Federal agency generally

with a collection of information that does not display a valid OMB Control Number. See
5 CFR 1320.5(a) and 1320.6.
