DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Public Comment Request

Information Collection Request Title: Rural Health Network Development Program;

OMB No. 0906- 0010 - Revision

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects of the Paperwork Reduction Act of 1995, HRSA announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this ICR should be received no later than [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA Information Collection Clearance Officer, Room 14N136B, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email paperwork@hrsa.gov or call Lisa Wright-Solomon, the HRSA Information Collection Clearance Officer at (301) 443-1984.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the information request collection title for reference.

Information Collection Request Title: Rural Health Network Development Program

OMB No. 0906- 0010–Revision
Abstract: The Rural Health Network Development Program (RHND) is authorized under Section 330A(e) of the Public Health Service Act (42 U.S.C. 254(e)). The purpose of this program is to support integrated rural health care networks that have combined the functions of the entities participating in the network to address the health care needs of the targeted rural community. Recipients will combine the functions of the entities participating in the network to address the following legislative aims: (i) achieve efficiencies; (ii) expand access, coordinate, and improve the quality of essential health care services; and (iii) strengthen the rural health care system as a whole.

RHND-funded programs promote population health management and the transition towards value based care through diverse network membership that includes traditional and non-traditional network partners. Evidence of program impacted demonstrated by outcome data and program sustainability are integral components of the program. This is a 3-year competitive program for networks composed of at least three members that are separate, existing health care providers or entities.

Need and Proposed Use of the Information: This program needs measures that will enable HRSA to provide aggregate program data required by Congress under the Government Performance and Results Act of 1993. These measures cover the principal topic areas of interest to the Federal Office of Rural Health Policy, including: (a) access to care; (b) population demographics; (c) staffing; (d) consortium/network; (e) sustainability; and (f) project specific domains. All measures will evaluate the Federal Office of Rural Health Policy (FORHP’s) progress toward achieving its goals.

The proposed changes of RHND measures are a result of the accumulation of grantee feedback, peer-reviewed research, and information gathered from the previously approved RHND measures. The proposed changes include additional questions surrounding the network’s components of sustainability. Questions surrounding Health Information Technology (HIT) and Telehealth have been modified to reflect updated knowledge on the use of both HIT and
Telehealth and to improve understanding of how these important technologies are affecting HRSA grantees. Additional National Quality Forum measures were also included in an effort to allow uniform collection efforts throughout FORHP. In addition, the total number of responses has decreased to 44 since the previous ICR submission. This is due to a new RHND grant cycle with a decreased number of awardees and therefore a decreased number of respondents.

*Likely Respondents:* Respondents will be awardees of the Rural Health Network Development Program.

*Burden Statement:* Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

**Total Estimated Annualized Burden Hours:**

<table>
<thead>
<tr>
<th>Form Name</th>
<th>Number of Respondents</th>
<th>Number of Responses per Respondent</th>
<th>Total Responses</th>
<th>Average Burden per Response (in hours)</th>
<th>Total Burden Hours</th>

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be
collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Maria G. Button,

Director, Executive Secretariat.
