SUPPLEMENTARY INFORMATION:

I. Background

In the *Federal Register* of March 27, 2018 (83 FR 13134), FDA published the notice of availability for a draft guidance entitled "Elemental Impurities in Animal Drug Products-- Questions and Answers," giving interested persons until May 29, 2018, to comment on the draft guidance. On August 15, 2018, we published a notice reopening the comment period to October 15, 2018 (83 FR 40524). FDA received comments on the draft guidance, and those comments were considered as the guidance was finalized. The guidance announced in this notice finalizes the draft guidance dated March 2018.

This level 1 guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on elemental impurities in animal drug products. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

This guidance contains no collection of information. Therefore, clearance by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3521) is not required.
