Election of Officers of the Osage Minerals Council

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Proposed rule.

SUMMARY: The Bureau of Indian Affairs (BIA) proposes to revise its regulations governing elections of the Osage Nation to update and limit the Secretary’s role to the task of compiling a list of voters for Osage Minerals Council elections. These proposed changes would reaffirm the inherent sovereign rights of the Osage Tribe to determine its membership and form of government.

II. Background  

A. History of the Rule  

The Department of the Interior provided testimony in support of the legislation proposed by the Osage Nation when the Nation sought to exercise its inherent sovereign rights. Thereafter, the United States Congress reaffirmed in 2004 the Nation’s rights to determine its membership and form of government. The following discussion sets forth a brief historical account of the
relationship between the Osage Nation and the Federal government.

In 1906, Congress enacted the Osage Allotment Act, which is unique among Federal Indian laws in that it restricts the Osage Nation from defining its own membership rules, and prescribes a particular form of government, which the Nation could not change without seeking amendment or clarification of Federal law. In 2002, the 31st Osage Tribal Council, formed pursuant to the Osage Allotment Act, actively began seeking a legislative remedy to address the restrictions contained in the Osage Allotment Act.

On July 25, 2003, Congressman Frank Lucas (R-OK) introduced H.R. 2912, a bill reaffirming the rights of the Osage Nation to form its own membership rules and tribal government, provided that no rights to any shares in the mineral estate of the Nation's reservation are diminished. The bill also directs the Secretary of the Interior to assist the Nation in holding appropriate elections and referenda at the request of the Nation.

H.R. 2912 was referred to the Committee on Resources. On March 15, 2004, that Committee held a hearing on the bill in Tulsa, Oklahoma. Osage Nation officials, BIA representatives, and Osage people testified in favor of the bill. On May 5, 2004, the bill was favorably reported to the House of Representatives by unanimous consent. See H. Rpt. 108-502. On June 1, 2004, the House of Representatives passed the bill and then sent it to the Senate, and it was referred to the Committee on Indian Affairs.

The Commission began conducting town hall meetings in April 2005. Meetings were conducted in all Osage communities and other geographic areas with large concentrations of Osages. This was followed by a written survey mailed to all Osages with a Certificate of Degree of Indian Blood (CDIB) card. Input from the meetings and data obtained from the survey results
were compiled to formulate key questions put forward to the Osage people for a vote in a referendum in November 2005.

The results from the referendum were used to draft an Osage Constitution, which was ratified on March 11, 2006, in a second referendum vote. The Osage Nation adopted a new constitutional form of government reorganized from a Tribal Council system into a tripartite system, which now includes an executive, legislative and judicial branch with a separation of powers between the three branches.

This was followed on June 5, 2006, by the election of a Principal Chief and Assistant Principal Chief, Osage Nation Congress, and Osage Minerals Council. At the request of the Nation, the BIA provided technical assistance in conducting the election in accordance with Public Law 108-431, 118 Stat. 2609. With the elections completed, all elected officials were sworn into their respective offices on July 3, 2006. Upon the swearing in of these elected officials, governmental authority passed from the Osage Tribal Council to the Osage Nation Constitutional Government. Thereafter, the Osage Tribe of Indians of Oklahoma became the Osage Nation.

In 2008, the BIA formally acknowledged the name change of the Tribe from the Osage Tribe of Indians of Oklahoma to the Osage Nation and published the change in the Federal Register in the list of Indian Entities Recognized and Eligible to Receive Services from the United States Bureau of Indian Affairs. (See, 73 FR 18553, April 4, 2008). Further communication between the Nation and the BIA eventually resulted in an agreement to begin an informal negotiated rulemaking process. In February 2010, representatives from the Osage Nation, the BIA Osage Agency, the BIA Eastern Oklahoma Regional Office, the Tulsa Field Solicitor’s Office, and the BIA Central Office convened to form a joint regulation negotiation team. The team completed new and revised regulations to cover 25 CFR parts 90, 91, 117, and 158. The June 2010 Election resulted in a change of administration of the Osage Nation, thereby, starting the process over again with a new vision from Osage Nation. The Osage Nation
formed a new team in 2019 and they have reviewed and revised regulations to cover 25 CFR Part 90. The team will continue working on Parts 91, 117, and 158.

B. The Need for this Proposed Rulemaking

Both the BIA and the Osage Nation recognized the need to update Federal regulations related specifically to the Osage Nation so that the regulations align with the Osage Nation’s new form of government and address outdated regulations. In doing so, the parties agreed to participate in informal rulemaking. This consensus-oriented process conducted between the BIA and the Osage Nation afforded an opportunity to collaborate and identify a rulemaking strategy to address issues and concerns contained in the regulations specifically affecting the Osage. The proposed rulemaking will clarify the BIA’s role to better meet its fiduciary trust responsibilities and carry out the policies established by Congress to strengthen tribal sovereignty on a government-to-government basis. This rulemaking will also provide the BIA with the tools to more effectively and consistently manage trust assets and better serve the Osage Nation and Osage people.

III. Overview of Proposed Rule

This rule governs BIA’s role in providing information to the Osage Minerals Council Election Board for purposes of notice. The existing 25 CFR part 90 is the authority for the release of otherwise potentially confidential information to the Osage Minerals Council Election Board. The alternative to these amendments would deprive the Osage Nation of the information it needs to accurately identify Osage voters. Amendments to this part focus on the BIA’s procedures in compiling a complete annuitant list with addresses and headright interests to the Osage Minerals Council Election Board for purposes of identifying Osage voters.

This proposed rule would delete most provisions of Part 90 in their entirety because of the enactment of the Public Law 108-431, 118 Stat. 2609, and subsequent adoption of the Constitution of the Osage Nation. Thus, the remaining purpose of this part is the authority for BIA to provide a list to the Osage Minerals Council Election Board of eligible headright interest
owners in the manner requested by the Osage Nation. The Department may not generally release this information but this part provides authority for the release solely to the Osage Minerals Council Election Board for purposes of conducting elections for the Osage Minerals Council.

The Privacy Act does not prohibit disclosure of the headright interests of eligible Osage voters for this purpose. The Department may provide the list of eligible headright interest owners as a routine use under the Privacy Act.

In response to the Constitution of the Osage Nation, the BIA significantly reduced its role in the elections of the Osage Nation as of June 2006. The only remaining portion in part 90 describes the current role of the BIA in the Osage Minerals Council election process.

IV. Procedural Requirements

A. Regulatory Planning and Review (E.O. 12866, 13563, and 13771)

Executive Order (E.O.) 12866 provides that the Office of Information and Regulatory Affairs (OIRA) at the Office of Management and Budget (OMB) will review all significant rules. OIRA has determined that this rule is not significant.

E.O. 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the Nation’s regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The E.O. directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements. This proposed rule is also part of the Department's commitment under the Executive Order to reduce the number and burden of regulations.

E.O. 13771 of January 30, 2017, directs Federal agencies to reduce the regulatory burden on regulated entities and control regulatory costs. OIRA has determined that this rule is deregulatory because the updates will dramatically reduce the role of the Federal government in Osage Nation elections of officers.

B. The Regulatory Flexibility Act
The Department of the Interior certifies that this proposed rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

C. Small Business Regulatory Enforcement Fairness Act of 1996

This proposed rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. Because this proposed rule is exclusively confined to the Federal Government, Osage Indians, and the Osage Nation, this rule:

(a) Does not have an annual effect on the economy of $100 million or more.

(b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.

(c) Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

D. Unfunded Mandates Reform Act of 1995

This proposed rule does not impose an unfunded mandate on State, local, or Tribal governments or the private sector of more than $100 million per year. The proposed rule does not have a monetarily significant or unique effect on State, local, or Tribal governments or the private sector. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 et seq.) is not required.

E. Takings (E.O. 12630)

This proposed rule does not affect a taking of private property or otherwise have taking implications under Executive Order 12630 because this proposed rule does not affect individual property rights protected by the Fifth Amendment or involve a compensable "taking." A takings implication assessment is not required.

F. Federalism (E.O. 13132)

Under the criteria in section 1 of Executive Order 13132, this proposed rule does not have
sufficient federalism implications to warrant the preparation of a federalism summary impact statement. A federalism summary impact statement is not required.

**G. Civil Justice Reform (E.O. 12988)**

This proposed rule complies with the requirements of Executive Order 12988. Specifically, this rule: (a) Meets the criteria of section 3(a) requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and (b) Meets the criteria of section 3(b)(2) requiring that all regulations be written in clear language and contain clear legal standards.

**H. Consultation with Indian Tribes (E.O. 13175)**

The Department of the Interior strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and recognition of their right to self-governance and Tribal sovereignty. We have evaluated this rule under the Department’s consultation policy and under the criteria in Executive Order 13175 and have determined that it has substantial direct effects on one federally recognized Indian Tribe because the rule directly addresses the Osage Nation. The Department consulted with the Osage Nation on this proposed rule prior to its publication. This rulemaking is a result of a consensus-oriented process conducted between the Department of the Interior and the Osage Nation to identify a rulemaking strategy to address issues and concerns contained in the regulations related specifically to the Osage Nation, which no longer align with the Nation’s form of government. The purpose of today’s proposed rulemaking is to allow the Department of the Interior to better meet its fiduciary trust responsibilities and to carry out the policies established by Congress to strengthen Tribal sovereignty with regard to elections of Osage Nation officers.

**I. Paperwork Reduction Act**

This proposed rule does not contain information collection requirements, and a submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) is not required. We may not conduct or sponsor and you are
not required to respond to a collection of information unless it displays a currently valid OMB
control number.

**J. National Environmental Policy Act**

This proposed rule does not constitute a major Federal action significantly affecting the
quality of the human environment. A detailed statement under the National Environmental
Policy Act of 1969 (NEPA) is not required because this is an administrative and procedural
regulation. (For further information see 43 CFR 46.210(i)). We have also determined that this
proposed rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215
that would require further analysis under NEPA.

**K. Effects on the Energy Supply (E.O. 13211)**

This proposed rule is not a significant energy action under the definition in Executive
Order 13211. A Statement of Energy Effects is not required.

**L. Clarity of this Regulation**

We are required by Executive Orders 12866 (section 1(b)(12)), and 12988 (section
3(b)(1)(B)), and 13563 (section 1(a)), and by the Presidential Memorandum of June 1, 1998, to
write all rules in plain language. This means that each proposed rule we publish must:

a) Be logically organized;

b) Use the active voice to address readers directly;

c) Use clear language rather than jargon;

d) Be divided into short sections and sentences; and,

e) Use lists and tables wherever possible.

If you feel that we have not met these requirements, send us comments by one of the
methods listed in the "ADDRESSES" section. To better help us revise the rule, your comments
should be as specific as possible. For example, you should tell us the numbers of the sections or
paragraphs that are unclearly written, which sections or sentences are too long, the sections
where you believe lists or tables would be useful, etc.
M. Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment – including your personal identifying information – may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
