#### **SUPPLEMENTARY INFORMATION:**

*I. Abstract*

The National Marine Fisheries Services (NMFS), Alaska Region, is requesting extension of a currently approved information collection for the applications for the Federal Fisheries Permit, the Federal Processor Permit, and the Exempted Fishing Permit.

NMFS requires a Federal Fisheries Permit (FFP) or Federal Processor Permit (FPP) for participation in the groundfish fisheries of the exclusive economic zone off Alaska. NMFS issues an Exempted Fishing Permit (EFP) to allow groundfish fishing activities that would otherwise be prohibited under regulations for groundfish fishing. EFPs are issued to support projects that could benefit the groundfish fisheries and the environment and result in gathering information not otherwise available through research or commercial fishing operations. Regulations governing these permits are at 50 CFR 600.745, 679.4, and 679.6.

Operators of vessels and managers of processors must have a permit on board or on site when fishing, receiving, buying, or processing groundfish and non-groundfish species. The permit information provides harvest gear types; descriptions of vessels, shoreside processors, and stationary floating processors; and expected fishery activity levels. The information requested on the permit applications is used for fisheries management and regulatory compliance by NMFS Sustainable Fisheries Division, NMFS Restricted Access Management Program, NMFS Observer Program, NOAA Office of Law Enforcement, the U.S. Coast Guard, and the North Pacific Fisheries Management Council.

Section 303(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act specifically recognizes the need for permit issuance. Requiring a permit for marine resource users is one of the regulatory steps taken to carry out conservation and management objectives. Permit issuance is essential in fishery resources management for identification of the participants and expected activity levels and for regulatory compliance.
