SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3521), Federal
Agencies must obtain approval from the Office of Management and Budget (OMB) for each
collection of information they conduct or sponsor. "Collection of information" is defined in 44
U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that
members of the public submit reports, keep records, or provide information to a third party.
Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to
provide a 60-day notice in the Federal Register concerning each proposed collection of
information, including each proposed extension of an existing collection of information, before
submitting the collection to OMB for approval. To comply with this requirement, FDA is
publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these
topics: (1) whether the proposed collection of information is necessary for the proper
performance of FDA's functions, including whether the information will have practical utility;
(2) the accuracy of FDA's estimate of the burden of the proposed collection of information,
including the validity of the methodology and assumptions used; (3) ways to enhance the quality,
utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the
collection of information on respondents, including through the use of automated collection
techniques, when appropriate, and other forms of information technology.

Food Labeling; Calorie Labeling of Articles of Food in Vending Machines and Nutrition
Labeling of Standard Menu Items in Restaurants and Similar Retail Food Establishments
This information collection supports FDA regulations under part 101 (21 CFR part 101) and the associated collection instrument Form FDA 3757. The Federal Food, Drug, and Cosmetic Act requires the disclosure of certain calorie labeling of articles of food in vending machines, as well as nutrition information for standard menu items in certain restaurants and retail food establishments. Sections 101.8 and 101.11 provides that respondents with a chain of 20 or more locations will disclose nutritional information of certain foods for consumers of food products for the purpose of making informed dietary choices. We also offer registration for respondents who wish to voluntarily participate with this information collection activity, for which we developed Form FDA 3757 entitled, "DHHS/FDA Menu and Vending Machine Labeling Voluntary Registration" to assist respondents in this regard. To keep the registration active, a respondent renews their registration every other year within 60 days prior to the expiration of the respondent's current registration with FDA, or it will automatically expire.

We use the collection of information to help determine compliance with regulatory requirements. Third-party disclosure requirements are used by consumers of food products for the purpose of making informed dietary choices.

**Description of Respondents:** Respondents to this collection of information are vending machine operators and restaurants or other similar food establishments that are subject to the requirements of part 101 as well as those entities that voluntarily participate with the provisions of this collection of information.

We estimate the burden of the collection of information as follows:
