DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2020-1014; Airspace Docket No. 20-ASW-7]

RIN 2120-AA66

Proposed Amendment of Class D and E airspace; Farmington, NM

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class D airspace at Four Corners Regional Airport. This action also proposes to modify the Class E airspace designated as a surface area to match the modified Class D dimensions. Additionally, this action proposes to modify the Class E airspace, extending upward from 700 feet above the surface. Further, this action proposes to remove the Class E airspace, extending upward from 1,200 feet above the surface. This action also proposed to remove the Four Corners Regional ILS Localizer and the Farmington VORTAC from the legal descriptions’ text headers and airspace descriptions. Lastly, this action proposes several administrative corrections to the airspace legal descriptions. This action would ensure the safety and management of instrument flight rules (IFR) operations at the airport.

DATES: Comments must be received on or before [INSERT DATE 45 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

20-ASW-7, at the beginning of your comments. You may also submit comments through the Internet at https://www.regulations.gov.

FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11E at NARA, email fedreg.legal@nara.gov or go to https://www.archives.gov/federal-register/cfr/ibr-locations.html.

FOR FURTHER INFORMATION CONTACT: Matthew Van Der Wal, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198; telephone (206) 231-3695.

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend the Class D and Class E airspace at Four Corners Regional Airport, Farmington, NM, to support IFR operations at the airport.

Comments Invited
Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA-2020-1014; Airspace Docket No. 20-ASW-7”. The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at https://www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the “ADDRESSES” section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of
Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations Part 71 by modifying the Class D airspace at Four Corners Regional Airport, Farmington, NM. To properly contain IFR departures, an extension should be added to the eastern boundary of the Class D airspace. The extension is designed to properly contain IFR departures flying toward or over rising terrain. This airspace area would be described as follows: That airspace extending upward from the surface to and including 8,000 feet MSL within a 4.7-mile radius of the airport, and within 1.8 miles each side of the 086° bearing from the airport, extending from the 4.7-mile radius to 5.6 miles east of Four Corners Regional Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

This action also proposes to modify the Class E airspace designated as a surface area to be coincident with the new Class D dimensions. This airspace area would be described as follows: Within a 4.7-mile radius of Four Corners Regional Airport and within 1 mile each side of the Four Corners Regional ILS Localizer east course extending from the 4.7-mile radius to 5.6 miles east of the airport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to
Airman. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Additionally, this action proposes to modify the Class E airspace extending upward from 700 feet above the surface. The current configuration does not properly contain IFR aircraft performing an instrument approach to the airport. This airspace is designed to contain IFR departures to 1,200 feet above the surface and IFR arrivals descending below 1,500 feet above the surface. This airspace area would be described as follows: That airspace extending upward from 700 feet above the surface within a 6.7-mile radius of the airport, and within 4 miles north and 8 miles south of the 088° bearing from the airport, extending from the 6.7-mile radius of the airport, and extending from 4 miles east of the airport to 22.4 miles east of the airport, and within 4.2 miles each side of the 267° bearing from the airport, extending from the 6.7-mile radius to 12.5 miles west of Four Corners Regional Airport.

This action also proposes to remove the Class E airspace extending upward from 1,200 feet above the surface. This area is wholly contained with the Denver en route airspace and duplication is not necessary.

The action also proposes to remove the Four Corners Regional ILS Localizer from the Class D and Class E2 text headers and airspace descriptions. The action also proposes to remove the Farmington VORTAC from the Class E5 airspace text header and airspace description. The navigational aids are not needed to define the airspace. Removal of the navigational aids allows the airspace to be defined from a single reference point which simplifies how the airspace is described.

Lastly, this action proposes several administrative corrections to the airspaces’ legal descriptions. This action proposes to remove the city name from the second line of Class D, Class E2, and Class E5 the text header. The legal descriptions for the Class D and Class E2 airspace contain the outdated term “Airport/Facility Directory” this action
proposes to update the term to “Chart Supplement”. The airport’s geographic coordinates in the Class D and Class E2 text headers do not match the FAA database; this action proposes to update the geographic coordinates to “lat. 36°44’29”N., long. 108°13’48”W.”

Class D, E2, and E5 airspace designations are published in paragraphs 5000, 6002, and 6005, respectively, of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

**List of Subjects in 14 CFR Part 71**
Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71 - DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

Paragraph 5000. Class D Airspace

* * * * *

ASW NM D Farmington, NM [Amended]
Four Corners Regional Airport, NM
(lat. 36°44’29”N., long. 108°13’48”W.)

That airspace extending upward from the surface to and including 8,000 feet MSL within a 4.7-mile radius of the airport, and within 1.8 miles each side of the 086° bearing from the airport, extending from the 4.7-mile radius to 5.6 miles east of Four Corners Regional Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

Paragraph 6002, Class E Airspace Designated as a Surface Area

* * * * *

ASW NM E2 Farmington, NM [Amended]
Four Corners Regional Airport, NM
(lat. 36°44’29”N., long. 108°13’48”W.)

That airspace extending upward from the surface within a 4.7-mile radius of the airport, and within 1.8 miles each side of the 086° bearing from the airport, extending from the 4.7-mile radius to 5.6 miles east of Four Corners Regional Airport. This Class E airspace
area is effective during the specific dates and times established in advance by a Notice to Airman. The effective date and time will thereafter be continuously published in the Chart Supplement.

Paragraph 6005. Class E Airspace Areas Extending Upward from 700 feet or more above the Surface of the Earth.

* * * * *

ASW NM E5 Farmington, NM [Amended]
Four Corners Regional Airport, NM
(lat. 36°44’29”N., long. 108°13’48”W.)

That airspace extending upward from 700 feet above the surface within a 6.7-mile radius of the airport, and within 4 miles north and 8 miles south of the 088° bearing from the airport, extending from the 6.7-mile radius of the airport, and extending from 4 miles east of the airport to 22.4 miles east of the airport, and within 4.2 miles each side of the 267° bearing from the airport, extending from the 6.7-mile radius to 12.5 miles west of Four Corners Regional Airport.

Issued in Seattle, Washington, on December 1, 2020.
