Final Supplemental Environmental Impact Statement for the Proposed Arrow Canyon Solar Project, Clark County, Nevada

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA), as the lead Federal agency, with the Bureau of Land Management (BLM), the Environmental Protection Agency (EPA), U.S. Fish and Wildlife Service (USFWS), and the Moapa Band of Paiute Indians (Moapa Band) as cooperating agencies, intends to file a final supplemental environmental impact statement (FSEIS) with the EPA for the proposed Arrow Canyon Solar Project (ACSP or Project). The FSEIS evaluates the expansion of the previously approved Moapa Solar Energy Center (MSEC) Project on the Moapa River Indian Reservation (Reservation) in Clark County, Nevada. This notice also announces that the FSEIS is now available for public review.

DATES: The FSEIS is available at the following website: www.arrowcanyonsolareis.com. In order to be fully considered, written comments on the FSEIS must arrive no later than 30 days after EPA publishes its Notice of Availability in the **Federal Register**.

ADDRESSES: You may mail, hand carry, fax, or email written comments to Mr. Chip Lewis, Regional Environmental Protection Officer, BIA Western Regional Office, Branch of Environmental Quality Services, 2600 North Central Avenue, 4th Floor Mail Room, Phoenix, Arizona 85004-3008; fax (602) 379-3833; email: chip.lewis@bia.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Chip Lewis, BIA Western Regional Office, Branch of Environmental Quality Services at (602) 379-6750 or Mr. Garry Cantley at (602) 379-6750.

SUPPLEMENTARY INFORMATION: The proposed Federal action, taken under 25 U.S.C. 415, is BIA's approval of a lease to accommodate the expansion of the solar field previously approved for the MSEC Project and the modification of the existing solar energy ground lease and related agreements entered into by the Moapa Band with the Applicant. The agreements provide for construction, operation and maintenance (O&M), and decommissioning of a 200-megawatt (MW) alternating current solar photovoltaic (PV) electricity generation facility located entirely on the Reservation and specifically on lands held in trust for the Moapa Band.

The MSEC Project was originally developed by Moapa Solar LLC and included an 850-acre solar site on the Reservation and associated rights-of-way (ROWs) on BLM-managed lands for an access road, gen-tie line, and water pipeline. Records of Decision (RODs) were issued by the BIA and BLM in May 2014 and BIA approved the lease one month later. The ROW was issued by BLM in August 2015 for the linear facilities. In March 2017, EDF Renewables Development, Inc. (EDFR) purchased the MSEC Project from the original owner and renamed the Project the Arrow Canyon Solar Project. EDFR subsequently transferred the Project to Arrow Canyon Solar, LLC. Currently, the approved MSEC Project and associated facilities have not yet been constructed.

The Applicant currently plans to expand the solar field on the Reservation from 850 acres to 2,200 acres. This expansion would occur on Tribal lands identified by the Moapa Band that are adjacent to the originally approved MSEC site. The linear facilities, (i.e. main access road, 230kV gen-tie line, and water pipeline) as previously approved by the BLM would remain a part of the Project description; therefore, these facilities are not reevaluated. The FSEIS focuses on the expansion of the solar field only.

Construction of the Project is expected to take approximately 18 to 20 months. The Applicant is expected to operate the energy facility up to 50 years. Major components of the solar site would include multiple blocks of solar PV panels mounted on tracking systems, inverters, transformers, collection lines, battery storage facilities, project substation, and O&M

facilities. Water will be needed during construction primarily for dust control and a minimal amount will be needed during operations for administrative and sanitary water use and panel washing. The water supply required for the Project would be from wells owned by the Moapa Band and delivered to the site via the previously approved water pipeline or trucks. Access to the ACSP will be provided via North Las Vegas Boulevard from the I-15 / US 93 interchange.

The purposes of the proposed Project are, among other things, to: (1) help provide a long-term, diverse, and viable economic revenue base and job opportunities for the Moapa Band; (2) meet the terms of the existing Power Purchase Agreement for the output of the Project; (3) help Nevada and neighboring states to meet their State renewable energy needs; and (4) allow the Moapa Band, in partnership with the Applicant, to optimize the use of the lease site while maximizing the potential economic benefit to the Moapa Band.

The BIA will use the FSEIS to make a decision on the land lease application under its jurisdiction; the EPA may use the document to make decisions under its authorities; the Band may use the FSEIS to make decisions under its Environmental Policy Ordinance; and the USFWS may use the FSEIS to support its decision under the Endangered Species Act.

Directions for Submitting Comments: Please include your name, return address and the caption: “FSEIS Comments, Proposed Arrow Canyon Solar Project” on the first page of your written comments and send to the address listed above in the ADDRESSES section.

Locations Where the FSEIS is Available for Review: The FSEIS will be available for review at: BIA Western Regional Office, 2600 North Central Avenue, 12th Floor, Suite 210, Phoenix, Arizona and the BIA Southern Paiute Agency, 180 North 200 East, Suite 111, St. George, Utah. The FSEIS is also available on line at: www.arrowcanyonsolareis.com.

To obtain an electronic copy of the FSEIS, please provide your name and address in writing or by voicemail to Mr. Chip Lewis or Mr. Garry Cantley. Their contact information is listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice. Individual paper copies of the FSEIS will be provided only upon request.

Public Comment Availability: Written comments, including names and addresses of respondents, will be available for public review at the BIA Western Regional Office, 2600 North Central Avenue, 12th Floor, Suite 210, Phoenix, Arizona during regular business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, telephone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: This notice is published in accordance with section 1503.1 of the Council on Environmental Quality regulations (40 CFR 1500 *et seq.*) and the Department of the Interior Regulations (43 CFR part 46) implementing the procedural requirements of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), and in accordance with the exercise of authority delegated to the Assistant Secretary—Indian Affairs by part 209 of the Department Manual.

Tara Sweeney,

Assistant Secretary—Indian Affairs.
