### Federal Railroad Administration

[Docket Number FRA-2020-0093]

### Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on December 2, 2020, the Brotherhood of Locomotive Engineers and Trainmen (BLET) and the Transportation Division of the International Association of Sheet Metal, Air, Rail, and Transportation Workers (SMART TD) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 240 and 242. FRA assigned the petition Docket Number FRA-2020-0093.

Paragraphs (c) and (d) of § 240.403 require petitions seeking review of a railroad's decision to deny or revoke a locomotive engineer's certification or recertification to be filed with FRA no more than 180 or 120 days, respectively, after the date of a railroad's decision. Paragraph (c) of § 242.503 requires petitions seeking review of a railroad's decision to revoke a conductor's certification to be filed with FRA no more than 120 days after a railroad's decision. Due to the coronavirus disease 2019 (COVID-19) public health emergency, FRA granted relief by letter dated April 7, 2020, and renewed that relief on June 3, 2020, July 30, 2020, and September 24, 2020. BLET and SMART TD once again request to renew this emergency relief. In light of the continued renewal requests, FRA now considers whether longer-term relief is necessary.

In support of their initial March 30, 2020, request for relief, petitioners noted FRA's March 25, 2020, waiver from certain requirements of 49 CFR parts 240 and 242 related to deadlines for responding to petitions submitted to FRA's Operating Crew Review Board granted to the Association of American Railroads, the American Short

Line and Regional Railroad Association, and the American Public Transportation Association (together referred to as the Associations).<sup>1</sup> BLET and SMART TD asserted that, as a result of the COVID-19 public health emergency, they and their members face “even greater difficulty in timely filing petitions for review” than the Associations and their members will have in responding to those petitions. In requesting a fourth renewal, the petitioners explain they “continue to experience uncertainty of staff availability during [the] COVID-19 emergency” and the resulting negative impact on their ability to gather additional relevant information and to draft proper petitions within the normal required time frames. FRA opened this docket to evaluate whether the requested emergency relief is necessary on a more long-term basis, similar to the Associations’ requests.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) (Docket Number FRA-2020-0093).
