[Docket No. CP20-503-000]

Northern Natural Gas Company; Notice of Availability of the Environmental Assessment for the Proposed Northern Lights 2021 Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Northern Lights 2021 Expansion Project (Project), proposed by Northern Natural Gas Company (Northern) in the above-referenced docket. Northern requests authorization to construct the Project, which will consist of (1) an 0.80-mile-long extension of its 24-inch-diameter Willmar D Branch Line; (2) a 0.63-mile-long 24-inch-diameter Carlton Interconnect Loop; (3) replacement of the 0.08-mile-long 8-inch-diameter Viking Interconnect Branch Line with a 12-inch-diameter branch line of the same length; (4) a new compressor station (Hinckley Compressor Station); (5) modifications of the Pierz Compressor Station and Interconnect; and (6) additional above-grade facilities including a launcher, receiver, and valve setting. The Project facilities would be in Dakota, Scott, Carlton, Morrison, and Pine counties in Minnesota.

The EA assesses the potential environmental effects of the construction and operation of the Northern Lights 2021 Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The Commission mailed a copy of the *Notice of Availability* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website ([www.ferc.gov](http://www.ferc.gov)), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select General Search and enter the docket number in the Docket Number field, excluding the last three digits (i.e. CP20-503). The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be.

To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5:00pm Eastern Time on **January 14, 2021**.
