## **SUPPLEMENTARY INFORMATION:**

### *I. Abstract*

The President, through Executive Order 13872 (May 13, 2019), re-established the President's Advisory Commission on Asian Americans and Pacific Islanders (AAPI Advisory Commission or Commission) to advise the President, through the Secretary of Commerce and the Secretary of Transportation, as Co-Chairs of the Initiative. The AAPI Advisory Commission provides advice to the President on executive branch efforts to broaden access of AAPI communities, families, and businesses to economic resources and opportunities that empower AAPIs to improve the quality of their lives, raise the standard of living of their communities and families, and more fully participate in the U.S. economy. Additionally, the Commission works to advance relevant evidence-based research, data collection, and analysis for AAPI populations, subpopulations, and businesses.

As part of the research agenda to advise the President, a contractor hired by the Commission intends to conduct telephone interviews with an estimated 10,000 persons to obtain a sample size of 1000 AAPI business owners regarding the economic impact of the COVID-19 pandemic on AAPI businesses and determine the economic and social impact of COVID-19 on AAPI business owners as individuals, members of families, and of the AAPI community.

*Methodology:* On behalf of the AAPI Commission, a contractor will select a random sample of registered voters, modeled as potential Business Owners and Asians, from the National voter file using Registration Based Sampling (RBS), targeting the age group aligned with the most recent Census American Community Survey data and 50 percent women. This methodology will avoid extreme usage of post-survey “weighting” to ensure the reliability of survey results.
