SUPPLEMENTARY INFORMATION:

Abstract of patent application(s):

A negative pressure surgical apparatus. The apparatus includes a mask configured to cover a portion of the face of a patient and including a first port and an instrument port. The first port is configured to draw negative pressure from between the mask and the face of the patient. The instrument port is configured to receive a medical instrument therethrough and form a seal

therewith. The instrument port is positioned on the mask so as to permit surgery at a surgical site.

Intellectual property:

- U.S. Application Serial No. 16/985,829, filed on August 5, 2020, and entitled *Negative pressure oronasal apparatus*.

The Department of the Air Force may grant the prospective license unless a timely objection is received that sufficiently shows the grant of the license would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be considered as an alternative to the proposed license.

Adriane Paris,

Acting Air Force Federal Register Liaison Officer.
