**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party.

The OCC is asking OMB to extend its approval of the following information collection:

*Title:* Examination Survey.

*OMB Control No.:* 1557-0199.

*Affected Public:* Businesses or other for-profit.

*Type of Review:* Regular.

*Abstract:* The OCC provides each national bank, Federal savings association, and Federal branch or agency (bank) with an Examination Survey at the end of its supervisory cycle (12- or 18-month period). This information collection permits banks to assess the OCC's bank supervisory activities, including the:

- Effectiveness of OCC communications with the bank;
- Reasonableness of OCC requests for data and information;
- Quality of OCC decision making during the exam process;
- Professionalism of OCC examining staff; and
- Responsiveness of OCC examiners.

The OCC developed the survey in 1994, at the suggestion of banking industry members who expressed a desire to provide examination-related feedback to the OCC. The Comptroller of the Currency and OCC supervisory staff considered that expressed

desire and concurred. The information collection continues to be an important tool for the OCC to measure OCC examination performance, design more efficient and effective examinations, and target examiner training.

This information collection continues to formalize and promote a long-standing OCC program. The OCC always has given the institutions it supervises the opportunity to provide input regarding the examination process.

*Burden Estimates:*

*Estimated Number of Respondents:* 1,714.

*Estimated Annual Burden:* 286 hours.

On October 5, 2020, the OCC issued a notice for 60 days of comment concerning the collection, 85 FR 62801. No comments were received. Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
