Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of title 49 Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that on December 22, 2020, Norfolk Southern Corporation (NS) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2020-0099.

Applicant: Norfolk Southern Corporation

Specifically, NS requests permission to discontinue an automatic block signal (ABS) system which includes the control point (CP) at BV&E Junction, 20 automatic signals on the H Line, and all 9 automatic signals on the J-Line. An operative approach signal will be placed at milepost (MP) H-223.8 in approach to CP Columbus Junction. Two operative approach signals will be installed at MP H-239.7 and MP H-242.6 in approach to CP North Oglethorp. The main track between MP H-220 and MP J-295.0 on the Albany Line of the Georgia Division will be converted to NS Rule 171 operation.

The reason for the proposed discontinuance is that operations no longer require a signal system.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.
