**SUPPLEMENTARY INFORMATION:**

*Description:* ORR plans to revise all 13 instruments currently approved under OMB #0970-0554, all of which will be incorporated into ORR’s new case management system, UAC Path. Five of the instruments contain revisions to the formatting, organization, or wording of field labels with no changes to the content. The remaining eight instruments contain changes in content. In addition, ORR plans to add four new instruments to this collection that will also be incorporated into UAC Path.

1. **Placement Authorization (Form P-1):** This instrument is used by ORR to authorize a care provider to provide care and services to UAC placed in their facility. Care providers sign the instrument to acknowledge certain responsibilities related to the care of the UAC. ORR revised the formatting, but no changes were made to the content. The average
burden minutes per response was increased from 1 to 5 minutes.

2. Authorization for Medical, Dental, and Mental Health Care (Form P-2): This instrument is used by ORR to authorize a care provider to provide medical, dental, and mental health care services to UAC placed in their facility. ORR revised the formatting and the order in which the fields appear. ORR added two new questions asking respondents to 1) describe any special skills or training of the foster family or group home, and 2) provide any
further available information and/or considerations about the timeline for physical transfer of the minor.

5. UAC Referral (formerly titled Intakes Placement Checklist and Add New UAC) (Form P-7): This instrument is used by Federal agencies to refer UAC to ORR custody and by ORR Intakes staff to place UAC in an ORR care provider facility. It also contains a checklist that is used by ORR Intakes staff to determine whether initial placement in a restrictive setting is appropriate for a UAC. ORR combined 2 of its current instruments, Intakes Placement Checklist and Add New UAC, into 1 instrument. The average burden minutes per response was increased from 15 to 60 minutes, plus an additional 30 minutes if the placement checklist must be completed. In addition, ORR made the following revisions:

- Moved the “Immigration Status at Referral” field to the UAC Profile instrument.
- Created a new “Parent/Legal Guardian Separation” section. This section contains 5 fields, and replaces the single question on the current version of the Add New UAC instrument.

- A new section titled “Criminal Charges” as added to capture more detailed information if the UAC has any criminal charges, which contains 9 fields.

- A new “Detention Facilities” section as created to capture more detailed information if the UAC was ever held in a detention facility. This section contains 9 fields.

- Added a new “Documents” section where documents related directly to the UAC’s referral may be uploaded.

11. Transfer Summary and Tracking (formerly titled Transfer Request and Tracking Form) (Form P-11): This instrument is used by care providers to track the physical transfer of the UAC and their belongings. Program Entity (formerly titled UAC Portal Capacity Report) (Form P-12): This instrument is used by care providers and ORR to track certain information related to care provider programs, such as location, contact information, bed capacity, state licensure, grant information, monitoring, and program census. ORR greatly expanded this instrument to track multiple types of information related to care provider programs. The average

13. UAC Profile (formerly titled Add New UAC) (Form P-13): This instrument is used by referring Federal agencies and care providers to create a profile for a UAC from which all information related to their case can be accessed. Previously, the purpose of this instrument was to 1) create an initial profile and 2) receive/process referrals. The function of receiving/processing referrals and the related fields from the Add New UAC instrument were moved to the UAC Referral instrument, as noted above in the description of changes for UAC Referral. The function of creating an initial profile in the system and related fields containing basic UAC information remain with this instrument. However, this purpose of this instrument has been expanded. It now acts as a hub where users can assess all records related to a UAC’s case. Most of the records accessible from the UAC Profile are being cleared as separate instruments, either in this or another one of ORR’s information collections. The sections being cleared under this instrument are as
follows: Profile Information, Program Designation, Legal-Immigration, Legal-Administrative, System Information, Apprehended Relationships, Other Relationships, Adult Contact Relationships, Entity Team, and Documents. The average burden minutes per response was increased from 15 to 45 minutes.

14. ORR Transfer Notice – Notice of Transfer to ICE Chief Counsel – Change of Address/Change of Venue (Form P-14): This instrument is used by care providers to notify DHS of the transfer of a UAC within the ORR care provider network so that DHS may file a Motion for Change of Venue and/or Change of Address with the Executive Office for Immigration Review to ensure the UAC’s immigration case is transferred to the local immigration court, if applicable. ORR revised the formatting, but no changes were made to the content.

15. Family Group Entity (Form P-15): This instrument is used by the ORR Intakes Team to associate UACs who are members of the same family with each other. This is a new instrument that ORR plans to add to this collection.

16. Influx Transfer Manifest (Form P-16): This instrument is used by designated care provider staff and ORR staff to plan, track, and notify stakeholders of group transfers to an influx care
facility. This is a new instrument that ORR plans to add to this collection.

Care provider staff review and update information on daily during times of influx. This is a new instrument that ORR plans to add to this collection.
