Needs and Uses: DFARS 231.205-18 requires contractors to report independent research and development (IR&D) projects to the Defense Technical Information Center (DTIC) using DTIC's online IR&D database. The inputs must be updated at least annually and when the project is completed. The data provide in-process information on IR&D projects for which DoD reimburses the contractor as an allowable indirect expense. In addition to improving the Department's ability to determine whether contractor IR&D costs are allowable, the data provide visibility into the technical content of industry IR&D activities to meet DoD needs.
